

## DECLARATION

The thesis entitled "Organotin(IV) Complexes of Schiff bases derived from Glycine: Synthesis and Structural Studies using Spectroscopic Techniques" submitted by me for the degree of Doctor of Philosophy of the University of North Bengal, Darjeeling. The thesis embodies the record of investigation carried out by me under the supervisions of both Dr. T. S. Basu Baul, Regional Sophisticated Instrumentation Centre, North Eastern Hill University, Shillong and Dr. A. Roy, Department of Chemistry, University of North Bengal. The work mentioned in this thesis was conducted at the Chemical Laboratory of the Regional Sophisticated Instrumentation Centre, North-Eastern Hill University, Shillong.

The work presented in this is original and provides a better understanding of the subject in the field of investigation. The outcome of some useful results have been published in the International journals while others are yet to be submitted for publication.

To the best of my knowledge the thesis has not been submitted for any degree of any other University.
