

## C O N T E N T S

	<u>Page No.</u>
Preface	... 1-iii
Acknowledgement	... iv-vi
CHAPTER I : Introduction	... 1-19
CHAPTER II : Synthesis, Characterization, Chiroptical And Cyclic Voltammetric Studies on Dioxouranium(VI) Complexes of Aldimine Derivatives of L-/D-Histidine And X-ray Crystal Structure of (N-Orthovanillidene-L-histidinato) (2,2'-bipyridyl) Dioxouranium(VI) Monohydrate Monomethanolate.	... 20-68
CHAPTER III : Synthesis, Characterization, Electrochemical, Circular Dichroism And <sup>1</sup> H NMR Spectral Studies on Dioxouranium(VI) Complexes of Chiral Aldimine Derivatives of L-And D-Arginine. Physico-chemical Studies on Dioxouranium(VI) Complexes of N-(Orthovanillidene)-anthranilic acid And N-(Vanillidene)-anthranilic acid.	... 69-127
CHAPTER IV : Synthetic and Physico-chemical Studies on Dioxouranium(VI) Complexes with Chiral Aldimine Ligands Derived from Asparagine And Glutamine. Conformational Effect of Aldimine Chelate Ring on Cyclic Voltammetric Behaviour.	... 128-176
CHAPTER V : Synthesis and Physico-chemical Studies on Oxo-/Sulfido-bridged Molybdenum(V) And Molybdenum(VI) Complexes of Aldimine Derivatives of L-/D-Amino Acids. Effects of Conformational Factors on Electron Transfer Processes.	... 177-238
Summary And Concluding Remarks	... 239-246
References	... 247-265
