C O N T E N T S

PREFACE	: Scope and Object of the Work.	I - IX
CHAPTER - I	: Introduction, Review of the earlier works.	1 - 73
CHAPTER - II	: Electrical Conductances for Tetraalkylammonium Bromides, LiBF_4 and LiAsF_6 in Tetrahydrofuran at 25°C.	74 - 96
CHAPTER - III	: Viscosity and Density of Solutions of Tetraalkylammonium Bromides, R_4NBr (R = Butyl to Heptyl) in Tetrahydrofuran (THF) at different Temperatures.	97 - 115
CHAPTER - IV	: Apparent and Partial Molal Volumes of Some Symmetrical Tetraalkylammonium Bromides in Tetrahydrofuran and 1,2-Dimethoxyethane at different Temperatures.	116 - 151
CHAPTER - V	: Excess properties of the Binary Liquid Systems 1,2-Dimethoxyethane + Water and Tetrahydrofuran + Water at different Temperatures.	152 - 178
CHAPTER - VI	: Conductance Studies of Alkali Metal Chlorides and Bromides in Aqueous Binary Mextures of Tetrahydrofuran at 25°C.	179 - 205

CHAPTER - VII	:	Studies on Adiabatic Compressibilities of some Alkali Metal Chlorides and Bromides in Tetrahydrofuran + Water Mixtures at 25°C.	206 - 227
CHAPTER - VIII	:	Concluding Remarks.	228 - 232
