

ACKNOWLEDGEMENT

At this moment of writing my thesis I must avail the opportunity to convey my deep regards and gratitude to my teacher and supervisor Dr. P. Bandyopadhyay for encouragement at every stage of my course work. I am also grateful to all the faculty members of our department for their valuable suggestions.

I must not fail to express my gratitude and regards to Professor A. L. Rheingold and his group, Department of Chemistry & Biochemistry, University of Delaware, Newark, U.S.A, for X-ray crystallographic analysis of four compounds.

I also express my sincere thanks to Professor R. N. Mukherjee and Professor S. Pal for four electrochemical measurements and IR spectra respectively.

I am especially grateful to Dr. R. Bhawmick, St. Joseph's college, Darjeeling, for her unfailing encouragement and helpful assistance from the very beginning of my research work.

Valuable helps rendered by Dr. A. Chaudhury, Colorado State University, USA, deserves a special mention.

I wish to thank Dr. P. Bera, Mr. S. Sengupta, Mr. S. Pal and Mr. S. S. Chhetri for their valuable help and kind cooperation. I also gratefully acknowledge the help rendered by Mr. P. Das, Mr. A. N. Biswas and Miss S. Acharya of our laboratory.

I am thankful to all staffs of my department for their friendly assistance.

(iv)

I express my sincere gratitude towards my parents, all of my relatives and well wishers for their love, encouragement and friendly assistance.

I am especially grateful to my wife, Mrs. P. Neogi and my daughter Debaparna for their helpful cooperation and encouragement.

Finally I gratefully acknowledge the help of the University of North Bengal for providing me a research fellowship during this work.

Debatra Narayan Neogi
