

C O N T E N T S

| | Page |
|---|--------|
| <u>CHAPTER - I</u> | |
| Section A : Introduction and Review of previous work | 1-20 |
| Section B : Ion Exchange Formulations | 21-32 |
| Section C : Exchange Studies and Selectivities of clay minerals | 33-39 |
| <u>CHAPTER - II</u> | |
| Scope and object of work | 40-44 |
| <u>CHAPTER - III</u> | |
| Experimental | 45-56 |
| <u>CHAPTER - IV</u> | |
| Sorption and desorption of Rhodamine B and Rhodamine 6G on and from Na-montmorillonite system | 57-88 |
| Section A : Studies on Sorption | 59-64 |
| Section B : Desorption Studies | 65-88 |
| <u>CHAPTER - V</u> | |
| Sorption and Desorption of RG and RB on Na-kaolinite system | 89-109 |
| Section A : Studies on Sorption | 91-93 |
| Section B : Desorption Studies | 94-109 |

| | Page |
|--|---------|
| <u>CHAPTER - VI</u> | |
| Sorption and Desorption of Rhodamine 6G and Rhodamine B on Na-Laponite system | 110-132 |
| Section A : Studies on Sorption | 112-114 |
| Section B : Desorption Studies | 115-132 |
| <u>CHAPTER - VII</u> | |
| Effect of temperature on the Adsorption of dyes by Aluminosilicates | 133-143 |
| <u>CHAPTER - VIII</u> | |
| Sorption of Brilliant Cresyl blue on different aluminosilicates | 144-147 |
| <u>CHAPTER - IX</u> | |
| Spectrophotometric study of dye aggregation on clay Surface | 148-173 |
| <u>CHAPTER - X</u> | |
| Summary and Conclusion | 174-186 |
| REFERENCES | 187-209 |
