

LIST OF FIGURES IV

PREFACE VII

SUMMARY IX

Contents

PART I

INTRODUCTION

Introduction 1

Section A : Morphological features of the plants
of Flacourtiaceae family 3

Section B : Review of the investigated plants of
Flacourtiaceae family 6

PART II

CHEMICAL INVESTIGATION ON GYNOCARDIA ODORATA (R BR)

CHAPTER 1

Review of pentacyclic triterpenoids in brief 11

CHAPTER 2

**ISOLATION AND STRUCTURE ELUCIDATION OF
ODOLACTONE, A NEW TRITERPENOID**

Section A : Preliminary investigation of odolac-
tone 22

Section B : Spectrometric analysis of odolac-
tone 24

Section C : The structure of odolactone 35

Section D : Application of 2D NMR techniques on
odolactone. Revision of the previous
structure of odolactone and some
other naturally occurring triterpe-
noids of the friedelane group 43

CHAPTER 3

Systematic investigation on the neutral part of
Gynocardia odorata 54

CHAPTER 4

Investigation on the acid part of Gynocardia
odorata 71

CHAPTER 5

SOME NOVEL TRANSFORMATIONS OF FUNCTIONAL GROUPS
OF ODOLACTONE

Section A : Isomerization of γ -lactone moiety to
 δ -lactone 73

Section B : Reductive cleavage of lactone rings
with lithium-ethylenediamine 89

CHAPTER 6

Experimental 93

PART III

CHEMICAL INVESTIGATION ON FLACOURTIA SEPIARIA (ROXB)

Extraction 118

CHAPTER 1

Investigation on the neutral part of Flacourtia
sepiaria 119

CHAPTER 2

Investigation on the acid part of Flacourtia
sepiaria 159

CHAPTER 3

Experimental 166

- Appendix 1 : Hassan A et al, "Three new friedelane lactones from the bark of *Gynocardia odorata* (Flacourtiacea)", Tetrahedron Letters, 25 (1984) 865 180
- Appendix 2 : Hassan A et al, "Revised structure of odolactone and some naturally occurring triterpenoids of the friedelane group based on the application of the carbon-carbon connectivity 2D NMR technique", Tetrahedron Letters, (communicated) 184
- Appendix 3 : Hassan A et al, "Reduction of ketones to epimeric alcohols with potassium hydroxide-diethylene glycol", Tetrahedron, 41 (1985) 2513 188
- Appendix 4 : Hassan A et al, "Use of two-dimensional NMR spectroscopy for structure elucidation of sepesteonol", Indian Journal of Chemistry, 22B (1983) 727 192
