

ACKNOWLEDGEMENT

I have much pleasure in expressing my heartfelt gratitude to my supervisor Dr. B.N.Chakraborty for his valuable guidance, unfailing help and constant encouragement throughout the course of this investigation. I am grateful to Dr. (Mrs.) U. Chakraborty for her ungrudging help and advice at all the times. I am thankful to Prof. K.B.Dutta, Head of the Department of Botany, University of North Bengal, Prof. P.K.Basu, Director, Centre for Life Sciences, University of North Bengal for providing necessary facilities during the execution of this work. The help received from Prof. A.K.Chakraborty, Dr. P.K.Sarkar, Dr. A.Mukherjee and Dr. A.P.Das is gratefully acknowledged.

I express my thanks to Dr. S. Sarkar, Mr. R. Chakraborty, Mr. T.K.Sengupta and Mr. D.K.Sengupta for their kind help. Thanks are also due to Dr. B. Banerjee, Director, Tea Research Association, Nagrakata and Mr. A. Sen, Tea Research Association. I also extend my thanks to Dr. A.C. Ghosh, Bose Institute for providing necessary facilities for conducting ELISA.

I am grateful to Dr. A. Sivanesan, Commonwealth Mycological Institute, for identifying the organism.

I am thankful to Mr. S. Sanigrahi and Mr. D. Bhowmick for their help. Thanks are also due to the authorities of Mohurgong Gulma Tea Estate for providing the facilities of field experiments.

I am indebted to my colleagues Miss G. Das, Mr.S. Das and Mr. B. Shil of this laboratory for their unstinting help. Thanks are also due to Miss B. Sarkar, Mr. S. Dutta-Roy, Miss S. Sarkar, Mr. A. Dutta and Miss S. Sarkar for their help at various times.

I am thankful to Mr. S.K.Kundu for typing this manuscript.

I also record my thanks to University Grants Commission for providing financial assistance in the form of a fellowship during the tenure of this work.
