

ACKNOWLEDGEMENT

First of all I would like to express my heartfelt gratitude to my supervisors, Dr. B. N. Chakraborty and Dr. Usha Chakraborty, Department of Botany, for their guidance, kind and valuable suggestions and discussions throughout the execution of this work. I am also thankful to Dr. P. K. Sarkar, Head, Department of Botany, Prof. B. C. Pal, Director, Centre for Life Sciences and all teachers of the Department of Botany, specially to Dr. A. Saha for his skilful help.

My sincere thanks are due to Dr. P. K. Ghosh, Advisor, Department of Biotechnology, Ministry of Science and Technology, Government of India for his encouragement and suggestions.

I thankfully acknowledge the help of the Directors of Tocklai Tea Research Centre, Tocklai, Assam; Darjeeling Tea Research Centre, Kurseong, Darjeeling and U.P.A.S.T Tea Research Centre, Valparai, Tamil Nadu, for providing tea clones.

I also acknowledge the help of Prof. J. G. White, Horticulture International, Wellesbourne, UK; Prof. J. E. DeVay, University of California and Prof. R. A. Singh, Department of Plant Pathology for providing literature in the related field.

I would like to record my special thanks to Mr. Pratip Basu, Senior Research Fellow and Mr. Anil Kumar Sarki, Fieldman, for their untiring help and good cooperation in laboratory and field as well as during the preparation of this manuscript.

My sincere thanks are also due to the research scholars Dr. S. Guha, Dr. B. Shil, Dr. G. Das, Dr. S. K. Das, Ms. B. Sarkar, Ms. S. Dutta and Ms. C. Basu for their cooperation and help at all times.

Financial assistance received from the Department of Biotechnology, Ministry of Science and Technology, Govt. of India is gratefully acknowledged.

I am personally thankful to Mr. K. Deb for providing computers and Mr. M. Chakraborty, Mr. S. Paul and Mr. A. Nag for composing the matter of this thesis.

Last but not least, thanks go to my parents, maternal uncle late M. Das and beloved sisters and brothers for their inspiration and moral support.
