

## ACKNOWLEDGEMENTS

*"Hardwork is the key to success," a saying constantly driven into my ears since the onset of my research work till this stage of my life, with a deepest sense of gratitude, I would like to express my heartfelt indebtedness towards my research supervisor Dr. Arnab Sen, Lecturer, Department of Botany, University of North Bengal for his esteemed supervision, excellent guidance, constant encouragement, valuable suggestions and great help throughout. His genuine interest and a thorough scientific knowledge have helped me a lot. He has devoted his precious time in checking this thesis with his kind perseverance. I sincerely express my thanks and regards to him.*

*I truly feel towards those who were my source of inspiration throughout the completion of my research work, though I strongly feel that the space is not enough to acknowledge all of them by names but here are a few names without whom the present piece of work was not possible.*

*Special thanks are due to Dr. BN Chakraborty, Professor and Dean of faculty of science, Dr. A Saha, Head of the Botany Department, Prof. AP Das, Botany Department., Prof. PK Sarkar, Botany Department., to allow me to work in their laboratories.*

*I would like to express my thankfulness towards Dr. S.E. Kabir, Former Course Coordinator PGDTM, North Bengal University for kindly providing me the tea cultivars used in the present study.*

*I am also thankful to Dr. K.C. Bansal, LARI, New Delhi and Dr. Sampa Das, Bose Institute, Kolkata for providing me the valuable Gene constructs and allowing me to complete some part of my thesis in their laboratories.*

*My greatest debts are due to my lab-mates Malay Bhattacharya, Debadin Bose, Bharat Basistha, Saubashya Sur, Ayon Pal for offering me the necessary help and assistance with their selfless devotion.*

*I would like to thank my teachers; Late Prof. KB Dutta, Prof. PK Basu and Dr U Chakraborty, Dr. Asim Bothra, Dr. R Chakraborty Mr. Palash Mondal and Mr. Subhash Roy for letting me use their laboratory instruments as and when required.*

*During my thesis work I was fortunate to receive critical help and advices from Mr. Ashit Roy, Mr. Sher Babadur and from friends like Hadida, Monojit, Dipankar, Bikas, Shikta, Sriparna, Bhaskar, Souresh, Upkar, Anirudra, Cyaria, Merab, Chandra.*

*I would be remiss, if I neglect to acknowledge my Lab-boys, Mani, Ajit, Poppai and Bablu.*

*I am also thankful to many other friends and colleagues whose name may not appear here but they all have helped me morally and in many other ways.*

*My sincere thanks are due to four most important names in my life, my father Mr. J.S. Gill for his financial support, constant inspiration and robust encouragement, my mother Mrs. Parminder Kaur who always taught me to fulfill my duties with full devotion and sincerity no matter what comes in the way, my loving brother Gurpreet for his cheerful nature and caring attitude which kept me stimulated and specially my in-laws, who have helped me all through my research morally and with extreme understandings.*

*Above all there is one name for which my words may be insufficient to express my deepest gratitude "Wabe Guruji" and our greatest inspiration "Maharaj Ji" for their tremendous blessings showered upon me in every sphere of my life.*

*Last but not the least, I must mention a special name of my life and research, my beloved husband, Dr. Balwinder Singh Bajwa, who helped me to design and initiate my various experiments, taught me all the research related techniques and without whose active involvement, this work would never have been materialized. Just thanks will not be enough for his sacrifices.*

*Manprit Gill*
