## Chapter-1

<b>INTRODUCTION.....</b>	<b>1-28</b>
1.1. Historical Background.....	1
1.2. Location.....	2
1.3. Administrative Divisions.....	3
1.4. Topography and General Features	
1.4.1. Topography.....	4
1.4.2 Rivers and Drainage.....	5
1.5. Geology and Soil	
1.5.1. Geology.....	6
1.5.1.1. Geological Formation in a Chronological Order.....	7
1.5.2. Soil.....	10
1.6. Climate.....	10
1.6.1.1. Rainfall.....	12
1.6.1.2. Temperature.....	15
1.6.1.3. Relative humidity.....	17
1.6.1.4. Sunshine and Cloudiness.....	19
1.7. General Vegetation Type.....	19
1.8. Past Floristic Works.....	26
1.9. Objectives of the Present work.....	28

## Chapter-2

<b>MATERIALS AND METHODS.....</b>	<b>29-40</b>
2.1. Selection of the vegetation for Survey and Collection.....	29
2.1.1. Collection and Preservation of Materials.....	30
2.1.2. Field Note-Book.....	30
2.1.3. Identification.....	30
2.1.4. Enumeration and Description.....	31
2.2. Cytological Information.....	31
2.3. Phytosociological Studies.....	32
2.3.1. Location of the study area.....	32
2.3.2. Methods for sampling.....	32
2.3.3. Processing of Data.....	32
2.4. Phenological Studies.....	33
2.4.1. Study of Fruit setting and Maturity.....	33
2.5. Fruits, Seeds, Seedling and Propagation.....	33
2.5.1. Study of Fruits and Seeds.....	33
2.5.2. Study of Seedling and Seedling Morphology.....	34
2.5.3. Study of Vegetative Propagation.....	34
2.6. Study of Leaf Architecture.....	34
2.6.1. Clearing of Leaves.....	35
2.6.1. Study of the Minor Venation.....	35
2.6.2. Study of Veinlet Number.....	35
2.6.3. Study of Appendages.....	36
2.6.4 Study of Stomata.....	36
2.7. Studies on Pollen morphology.....	36
2.7.1..Preparation of Acetolysis mixture.....	36

2.7.2 Details of Acetolysis Method followed.....	37
2.7.3. Preparation of Pollen Slides.....	37
2.8. Study of Allelopathy.....	38
2.8.1. Preparation of Extract and Leachete Solutions.....	38
2.8.2. Germination Tests.....	38
2.8.2.1. Germination Percentage.....	39
2.8.2.2. Germination Percentage Inhibition or Stimulation.....	39
2.8.2.3. Percentage of Viability.....	39
2.8.2.4. Percentage of Non-Viability.....	39
2.8.2.5. Percentage of Inhibition of Seedling Length.....	39
2.8.2.6. Percentage of Inhibition of Root Length.....	40
2.8.2.7. Percentage of Inhibition of Shoot Length.....	40
2.8.2.8. Shoot Vigour Index.....	40
2.8.2.9. Root Vigour Index.....	40
2.8.2.10. Seedling Vigour Index.....	40
2.8.2.11. Shoot:Root Ratio.....	40
2.9. Study of Winter buds.....	40
<b>Chapter-3.....</b>	<b>41-63</b>
3.1. The Genus <i>Acer</i> .....	41
3.2. Systematic treatment.....	42
3.3. Result and Discussion.....	57
<b>Chapter-4 DISTRIBUTION AND PHYTOSOCIOLOGY OF <i>Acer</i> species IN THE DARJILING-SIKKIM HIMALAYAS.....</b>	<b>64-84</b>
4.1. Introduction.....	64
4.2. Distribution.....	65
4.2.1. The General Distribution of the Genus.....	65
4.2.2. Distribution of the species in the Darjiling- Sikkim Himalayas.....	67
4.3. Results and Discussion	
4.3.1. Distribution of the different species of <i>Acer</i> in the Darjeeling Sikkim Himalayas.....	74
4.3.2. Phyto-sociology of the different species of <i>Acer</i> .....	75
4.3.2.1. Results Analysis: Relative Density.....	75
4.3.2.2. Result Analysis: Relative Frequency.....	79
4.3.2.3. Result Analysis: Importance Value.....	82
<b>Chapter-5</b>	
<b>PHENOLOGY:.....</b>	<b>104-120</b>
5.1. Introduction.....	104
5.2. Systematic description of the Phenology of the different species of <i>Acer</i> L. of the Darjiling-Sikkim Himalayas.....	105
5.3. Results and Discussions.....	118
5.3.1. Leaf Emergence and Development.....	118
5.3.2. Flowering.....	118
5.3.3. Fruit Setting, Maturity and Retention.....	119
5.3.4. Leaf Shedding and Deciduous Leafless Stage.....	120

## **Chapter-6**

### **FRUIT, SEEDS, SEEDLING AND PROPAGATION.....121-140**

6.1. Introduction.....	121
6.2. Systematic Description of Fruits, Seed, Germination and Vegetative Propagation.....	123
6.3. Result and Discussion.....	135
6.3.1. Fruits.....	135
6.3.2. Parthenocarpy.....	138
6.3.3. Seeds.....	139
6.3.4. Germination.....	139
6.3.5. Vegetative Propagation.....	140

## **Chapter-7**

### **WINTER BUDS.....141-149**

7.1. Introduction.....	141
7.2. Key to the different species of <i>Acer</i> L. of the Darjiling Sikkim Himalaya based upon the Winter Bud.....	141
7.3. Systematic Enumeration of the Winter Buds of the different species of <i>Acer</i> L. of the Darjiling-Sikkim Himalayas.....	142
7.4. Results and Discussions.....	146

## **Chapter-8**

### **LEAF ARCHITECTURE.....150-171**

8.1. Introduction.....	150
8.2. Systematic treatment of the Leaf Architecture and Venation pattern of the different species of <i>Acer</i> L. Of the Darjiling-Sikkim Himalaya.....	153
8.3. Discussion.....	163
8.3.1 Leaf Shape.....	165
8.3.2. Leaf Margin.....	165
8.3.3. Major Venation Pattern.....	165
8.3.4. Minor Venation Pattern.....	165
8.3.5. Stomata.....	166
8.3.6. Leaf Appendages.....	167

## **Chapter-9**

### **STUDY OF POLLEN MORPHOLOGY.....172-176**

9.1. Introduction.....	172
9.2. Systematic enumeration of the Pollen Morphology of the different species of <i>Acer</i> of the Darjiling-Sikkim Himalayas.....	173
9.3. Results and Discussion.....	175

## **Chapter-10**

**STUDY OF ALLELOPATHY.....177-210**

**10.1. Introduction.....177**

**10.2. Discussion**

10.2.1. Effect on Germination Percentage.....179

10.2.2. Effect on over all Seedling Length.....180

10.2. 3. Effect on the over-all Shoot Length.....182

10.2. 4. Effect on the over-all Primary Root Length.....184

10.2. 5. Effect on the Secondary Root Length.....186

10.2. 6. Effect on the Secondary Root Number.....187

10.2. 7. Effect on the Shoot Root Ratio.....189

## **Chapter 11**

**GENERAL DISCUSSION AND CONCLUSION.....211-216**

**REFERENCES.....i-xiv**
