

CONTENTS

CHAPTER	TOPIC	PAGE NO.
CHAPTER-1: INTRODUCTION		1-44
1.1	History of Herbal Medicine	1
1.2	Herbal Heritage of India	2
1.3	Medicinal Plants in Sikkim	2
1.4	Inflammation Pathophysiology – An Overview	4
1.5	Cancer Pathophysiology – An Overview	13
1.6	Role of Plants in Cancer Therapy	27
1.7	Cross Road between Inflammation and Cancer	30
1.8	Role of Free Radicals in Inflammation and Cancer	30
1.9	Leukemia – An Overview	31
1.10	Apoptosis Pathway	34
1.11	Aims and Objectives	36
	References	38
CHAPTER – 2: REVIEW OF LITERATURE		45-91
2.1	<i>Bischofia javanica</i> Blume	45
2.2	<i>Fraxinus floribunda</i> Wallich	48
2.3	Updated Perusal on Anti-inflammatory Studies	52
2.4	Updated Perusal on Anticancer Studies	61
2.5	Updated Perusal on Antioxidant Studies	72
	References	78
CHAPTER – 3: PHYTOCHEMICAL STUDIES ON THE LEAVES OF <i>BISCHOFIA JAVANICA</i> AND <i>FRAXINUS FLORIBUNDA</i>		92-157
3.1	Introduction	92
3.2	Instruments and Chemicals	100

3.3	Extraction and Purification of Phytoconstituents from the Leaves of <i>Bischofia javanica</i>	100
3.3.1	Extraction of Phytoconstituents from <i>Bischofia javanica</i>	101
3.3.1.1	Collection of Plant Material	101
3.3.1.2	Extraction Procedure	101
3.4	Isolation and Purification of Phytoconstituents from the Leaf of <i>Bischofia javanica</i>	103
3.4.1	Preliminary Phytochemical Test	103
3.4.2	Thin Layer Chromatographic Study of the Chloroform Fraction of Methanol Leaf Extract of <i>B.javanica</i>	106
3.4.3	Column Chromatography of Leaf Extract of <i>B.javanica</i>	107
3.4.4	Isolation of Compound from Chloroform Fraction of <i>B.javanica</i> Leaf	107
3.4.5	Qualitative Study of the Compound Isolated from Chloroform Fraction of <i>B.javanica</i> Leaf	108
3.4.6	Physical Nature of the Compound Isolated from Chloroform Fraction of <i>B.javanica</i>	108
3.4.7	Thin Layer Chromatographic Study of the Compound Isolated from Chloroform Fraction of Leaf of <i>B.javanica</i>	108
3.4.8	Infrared Spectrum of the Compound Isolated from Chloroform Fraction of <i>B.javanica</i> Leaf	109
3.4.9	Nuclear Magnetic Resonance (NMR) Spectra of the Compound Isolated from the Chloroform Fraction of <i>B.javanica</i> Leaf	109
3.4.10	Mass Spectra of the Compound Isolated from the Chloroform Fraction of <i>B.javanica</i> Leaf	109
3.5	Results	109
3.5.1	Phytochemical Studies of <i>B.javanica</i> Leaf	109
3.6	Extraction and Isolation of Phytoconstituents from the Leaves of <i>Fraxinus floribunda</i>	129
3.7	Extraction of Phytoconstituents from <i>Fraxinus floribunda</i>	129
3.7.1	Collection of Plant Material	129
3.7.2	Extraction Procedure	129

3.8	Isolation and Purification of Phytoconstituents from the Leaf of <i>Fraxinus floribunda</i>	130
3.8.1	Preliminary Phytochemical Test	130
3.8.2	Thin Layer Chromatographic Study of the Chloroform Fraction of Methanol Leaf Extract of <i>F.floribunda</i>	132
3.8.3	Column Chromatography of Leaf Extract of <i>F.floribunda</i>	133
3.8.4	Isolation of Compound from Chloroform Fraction of <i>F.floribunda</i> Leaf	134
3.8.5	Qualitative Study of the Compound Isolated from Chloroform Fraction of <i>F.floribunda</i> Leaf	135
3.8.6	Physical Nature of the Compound Isolated from Chloroform Fraction of <i>F.floribunda</i>	135
3.8.7	Thin Layer Chromatographic Study of the Compound Isolated from Chloroform Fraction of Leaf of <i>F.floribunda</i>	135
3.8.8	Infrared Spectrum of the Compound Isolated from Chloroform Fraction of <i>F.floribunda</i> Leaf	135
3.8.9	Nuclear Magnetic Resonance (NMR) Spectra of the Compound Isolated from the Chloroform Fraction of <i>F.floribunda</i> Leaf	136
3.8.10	Mass Spectra of the Compound Isolated from the Chloroform Fraction of <i>F.floribunda</i> Leaf	136
3.9	Results	136
3.9.1	Phytochemical Studies of <i>F.floribunda</i>	136
	References	154

CHAPTER – 4: STUDIES ON TOXICITY AND ANTI-INFLAMMATORY ACTIVITY OF THE LEAVES OF *BISCHOFIA JAVANICA* AND *FRAXINUS FLORIBUNDA* **158 - 208**

4.1	Introduction	158
4.2	Acute-toxicity Studies of the Leaves of <i>Bischofia javanica</i>	161
4.2.1	Animals	161
4.2.2	Materials	162
4.2.3	Method	162
4.2.4	Results of Acute-toxicity Studies of the Leaves of <i>B.javanica</i>	162
4.3	Anti-inflammatory Studies of the Leaves of <i>Bischofia javanica</i>	162

4.3.1	Animals	162
4.3.2	Instruments and Chemicals	163
4.3.3	Methods	163
4.3.3.1	Carrageenan Induced Paw Edema in Rats	163
4.3.3.2	Cotton Pellet Induced Granuloma in Rats	163
4.3.3.3	Freund's Adjuvant Induced Arthritis in Rats	164
4.3.3.4	Arachidonic Acid Induced Paw Edema in Rats	164
4.3.4	Results of the Anti-inflammatory Studies of the Leaves of <i>B.javanica</i>	165
4.4	Anti-nociceptive Studies of the Leaves of <i>B.javanica</i>	166
4.4.1	Animals	166
4.4.2	Drugs and Chemicals	166
4.4.3	Methods	166
4.4.3.1	Tail-immersion Test	167
4.4.3.2	Writhing Test	167
4.4.4	Results of Anti-nociceptive Studies of the Leaves of <i>B.javanica</i>	167
4.5	Anti-pyretic Studies of the Leaves of <i>B.javanica</i>	167
4.5.1	Animals	167
4.5.2	Instruments and Chemicals	168
4.5.3	Method	168
4.5.3.1	Brewer's Yeast Induced Pyrexia in Rats	168
4.5.4	Results of Anti-pyretic Studies of the Leaves of <i>B.javanica</i>	168
4.6	Acute-toxicity Studies of the Leaves of <i>Fraxinus floribunda</i>	169
4.6.1	Animals	169
4.6.2	Materials	169
4.6.3	Method	169
4.6.4	Results of Acute-toxicity Studies of the Leaves of <i>Fraxinus floribunda</i>	169
4.7	Anti-inflammatory Studies of the Leaves of <i>Fraxinus floribunda</i>	170
4.7.1	Animals	170
4.7.2	Instruments and Chemicals	170
4.7.3	Methods	170
4.7.3.1	Carrageenan Induced Paw Edema in Rats	170
4.7.3.2	Cotton Pellet Induced Granuloma in Rats	170

4.7.3.3	Freund's Adjuvant Induced Arthritis in Rats	171
4.7.3.4	Arachidonic Acid Induced Paw Edema in Rats	171
4.7.4	Results of the Anti-inflammatory Studies of the Leaves of <i>F.floribunda</i>	172
4.8	Anti-nociceptive Studies of the Leaves of <i>F.floribunda</i>	173
4.8.1	Animals	173
4.8.2	Drugs and Chemicals	173
4.8.3	Methods	173
4.8.3.1	Tail-immersion Test	173
4.8.3.2	Writhing Test	173
4.8.4	Results of Anti-nociceptive Studies of the Leaves of <i>F.floribunda</i>	174
4.9	Anti-pyretic Studies of the Leaves of <i>F.floribunda</i>	174
4.9.1	Animals	174
4.9.2	Instruments and Chemicals	174
4.9.3	Method	175
4.9.3.1	Brewer's Yeast Induced Pyrexia in Rats	175
4.9.4	Results of Anti-pyretic Studies of the Leaves of <i>F.floribunda</i>	175
	References	206

CHAPTER – 5: ANTICANCER ACTIVITY STUDIES OF THE LEAVES

OF *BISCHOFIA JAVANICA* AND *FRAXINUS*

FLORIBUNDA

209-252

5.1	Introduction	209
5.2	Materials	211
5.2.1	Human Leukemia Cell line U-937, K-562 and HL-60	211
5.2.2	Instruments, Chemicals and Drugs	211
5.3	Anticancer Studies of the Leaves of <i>Bischofia javanica</i>	212
5.3.1	Cell Viability Studies	212
5.3.2	Cytotoxicity Studies	212
5.3.3	DNA Fragmentation Assay	213
5.3.4	Fluorescence Microscopy	213
5.3.5	Confocal Microscopy	213
5.4	Anticancer Studies of the Leaves of <i>Fraxinus floribunda</i>	214

5.4.1	Cell Viability Studies	214
5.4.2	Cytotoxicity Studies	214
5.5	Statistical Analysis	215
5.6	Results of Anticancer Activities of the Leaves of <i>Bischofia javanica</i>	215
5.6.1	Cell Viability Studies	215
5.6.2	Cytotoxicity Studies	215
5.6.3	DNA Fragmentation Assay	216
5.6.4	Fluorescence Microscopy	216
5.6.5	Confocal Microscopy	216
5.7	Results of Anticancer Activities of the Leaves of <i>Fraxinus floribunda</i>	217
5.7.1	Cell Viability Studies	217
5.7.2	Cytotoxicity Studies	217
	References	251

CHAPTER – 6: STUDIES ON ANTIOXIDANT ACTIVITY OF

THE LEAVES OF *BISCHOFIA JAVANICA* AND *FRAXINUS*

FLORIBUND

253-286

6.1	Introduction	253
6.2	Instruments, Chemicals and Drugs	254
6.3	Animals	254
6.4	Antioxidant Activities of the Leaves of <i>Bischofia javanica</i>	255
6.4.1	DPPH Radical Scavenging Assay	255
6.4.2	Lipid Peroxidation Assay	255
S6.4.3	Hydroxyl Radical Scavenging Assay	256
6.5	Antioxidant Activities of the Leaves of <i>Fraxinus floribunda</i>	256
6.5.1	DPPH Radical Scavenging Assay	256
6.5.2	Lipid Peroxidation Assay	257
6.5.3	Hydroxyl Radical Scavenging Assay	257
6.6	Results of Antioxidant Activities of the Leaves of <i>Bischofia javanica</i>	258
6.6.1	DPPH Radical Scavenging Assay	258
6.6.2	Lipid Peroxidation Assay	258
6.6.3	Hydroxyl Radical Scavenging Assay	259

6.7	Results of Antioxidant Activities of the Leaves of <i>Fraxinus floribunda</i>	259
6.7.1	DPPH Radical Scavenging Assay	259
6.7.2	Lipid Peroxidation Assay	259
6.7.3	Hydroxyl Radical Scavenging Assay	260
	References	285

CHAPTER – 7: DISCUSSION **287-306**

7.1	Phytochemical Studies	288
7.2	Anti-inflammatory Studies	290
7.3	Anticancer Studies	293
7.4	Antioxidant Studies	297
	References	300

CHAPTER – 8: SUMMARY AND CONCLUSION **307-310**

ANNEXURE : PUBLICATIONS

1. African Journal of Traditional, Complementary and Alternative Medicines (AJTCAM)
2. Asian Journal of Chemistry
