

ACKNOWLEDGEMENT

I take this opportunity to express my gratitude to all who had contributed in completing my research work. Acknowledgement through paper can never be the right alternative to repay the debts of priceless assistance, love, support and sincere cooperation from all of my well-wishers.

At first, I express my deep gratitude towards my **parents, in-laws, my sister, my uncle Late Dr. Amalendu Roy and my beloved wife** for their routine encouragement, which kept me focused in the successful completion of this mammoth task.

I express my reverential gratitude to my respected mentor and supervisor, **Dr.L.K.Nath**, without whose valuable guidance, scrupulous corrections, advice and encouragement, it would have been impossible to complete this project work.

My sincere gratitude is not just enough to show my respect for **Dr.H.P.Chhetri, Director, Himalayan Pharmacy Institute.** The infrastructural support permitted by him to an employee and his selfless encouragement to pursue the doctoral research work in the institute along

with normal academic duties, shall be an instance for the entrepreneurs of education in India.

My heartfelt thanks goes to **Dr. K.Gautaman**, whose continuous encouragement and support helped to finish my work in time.

I am grateful to the authorities of the **University of North Bengal** for providing instrumental facilities for the research work. I am also highly indebted to the **University Science Information Centre (USIC), Jadavpur University**, for SEM studies.

The time has come to offer my regards to **Dr.Biswanath Sa**, my supervisor at the post-graduate level, who showed me the path through which I explored and exploited and tried to achieve a worthy and meaningful research work.

I acknowledge **Lupin Laboratories Ltd., Mumbai**, and **Aventis Pharmaceuticals, Ankleshwar**, for their support in providing me the drug sample, Frusemide and **Corel Pharmaceuticals** for their supply of Polymers without which the project could not have been materialized. I am also grateful to **Dey's Medical Stores Ltd., Bengal Immunity, Indian Institute of Chemical Biology, School Of Tropical Medicine and Post**

Graduate College of Medicine, Calcutta for allowing me to access their library facilities.

I do not want to belittle my laboratory comrades **Mr.Biplab Kr. Dey** and **Mr. Partha Roy** by formal thanks. Their immense help, assistance and presence at every difficult moment shall stay in my mind as long as I live. My special thanks to **Mr.Prasanna Kr. Kar** and **Mr.L.Sutharson** for their cooperation in pharmacological studies, **Mr.G.Mariappan** for photometric analysis and **Mr.Mohan Raj** for chromatographic studies.

I am also thankful to my fellow research colleagues of other laboratories of our institute, particularly, **Mr.S.K.Bose**, **Dr.Benoy Brata Bhowmick**, **Dr.S.K.Dash**, **Dr.S.K.Mahapatra**, **Ms.Tanusree Nag**, **Mr.A.Chatterjee**, **Mr. Nihar Bhuiyan**, **Mrs.J.P.Mohanty**, **Mr. Sandip Ghosh** and **Mr.Ratan Biswas** for their assistance in experimental work, literature surveys and computational work. I should not forget the immense help of all the supporting staff of our institute with special thanks to **Gautam, Jeevan, Arun** and **Pathak**. I thank all of my junior staff members and my students, namely, **Kaushik, Uday, Prasant, Devi, Anit Kumar** and **Tirthankar**.

My bonding for life has got further strengthened with a lady, whose selfless commitment, painless typographical work and meticulous rectifications were among the few factors behind the completion of this thesis. Her relentless demand was the only inspiration behind this doctoral work. She happens to be my wife, **Mrs.Olivia Ghosh.**

Any omission of names, due to accidental forgetfulness or inadequate space is highly regretted.

Lastly, I would like to offer my greatest acknowledgement and humble prayer to **The Lord Almighty** whose abstract presence always kept me positive, energetic and focused.

Date: - 11th October, 2007

(AMITAVA GHOSH)
