OBSERVATIONS AND RESULTS

Air temperature and physico-chemical parameters of water of four sites.	30
Site 1 (Koshi river)	30
Site 2 (Seepage stream at Kushaha area)	43
Site 3 (Seepage stream at Shripur area)	56
Site 4 (Titrigachhi daha)	69
Seasonal variations in air temperature and physico- chemical parameters of water at Site 1 (Koshi river)	82
Seasonal variations in air temperature and physico-chemical parameters of water at Site 2 (Seepage stream at Kushaha area)	83
Seasonal variations in air temperature and physico-chemical parameters of water at Site 3 (Seepage stream at Shripur area)	84
Seasonal variations in air temperature and physico- chemical parameters of water at Site 4 (Titrigachhi daha)	85
Seasonal variations in air temperature and physico-chemical parameters of water at four sites.	86
Test for significant and insignificant differences in air temperature and physico-chemical parameters of water among sites and seasons.	88
