Acknowledgements	i-ii
Glossory	iii-v
General Introduction	1-3
Abstract	4-10
Chapter I : Review of Literature	15-55
Taxonomic status of <i>Fagopyrum dibotrys</i> (D.Don) Hara	11-12
Medicinal impotance of different species of <i>Fagopyrum</i>	12
Commercial importance of different species of <i>Fagopyrum</i>	12-13
Chemical constituents in different species of <i>Fagopyrum</i> .	13-18
Isolation ,purification and characterization of different natural products in different species of <i>Fagopyrum</i>	19-22
Quantitative estimation of phenolic compounds in <i>Fagopyrum</i> species .	22-23
Bioactivity of natural products isolated from different species of <i>Fagopyrum</i>	23-30
Effect of light on production of biologically active phenolic compounds in different species of <i>Fagopyrum</i> .	30-31
Effect of carbohydrate on the production of bioactive phenolic compounds in <i>Fagopyrum</i> species.	31-32
Effect of chemical factors on the growth of <i>Fagopyrum</i> species	32-35
Application of tissue culture in different species of <i>Fagopyrum</i>	35-38

Some ecological features of the Darjeeling and Sikkim Himalayas	38-45
Characteristic features of soil in the Sikkim and Darjeeling Himalayas	45-47 -

Chapter II: Investigation on nomenclature of *Fagopyrum dibotrys* (D.Don)

Hara available in Darjeeling and Sikkim Himalayas.

Introduction	48
Materials and Methods	48-49
Results and Discussion	49-55
Summary	56
Literature Cited	175-200

Chapter III : Isolation, purification and characterization of different

chemical constituent in different plant parts of

***Fagopyrum dibotrys*(D.Don) Hara**

Introduction	57-58
Materials and methods	58-64

Section A : Isolation, purification and identification of different

chemical constituents in the leaves of *Fagopyrum dibotrys*

(D.Don) Hara

Results	64 -75
Section B: Isolation, purification and identification of different chemical constituents in the stem of <i>Fagopyrum dibotrys</i> (D.Don) Hara	
Results	75-78
Section C: Isolation, purification and identification of different chemical constituents in the rhizomes of <i>Fagopyrum dibotrys</i> (D.Don) Hara	
Results	79-80
Section D: Isolation, purification and identification of different chemical constituents in the flower of <i>Fagopyrum dibotrys</i> (D.Don) Hara	
Results	80-81
Discussion	82-86
Summary	87-88
Literature Cited	175-200
Chapter IV: A new and easy method for quantitative estimation of rutin isolated from <i>Fagopyrum dibotrys</i> (D.Don) Hara	
Introduction	89
Materials and Method	89-91
Results and Discussion	91-93
Summary	94
Literature Cited	175-200

Chapter V : Pharmacognosy of *Fagopyrum dibotrys* (D.Don) Hara with

special interest on understanding the availability of different varieties of the plant.

Section A : Observation on macroscopic and microscopic characters of the plants collected from Darjeeling and Sikkim Himalayas .

Introduction	95
Materials and Methods	96-97
Results and Discussion	97-108
Summary	109

Section B : Observation on biochemical parameters of the plants collected from Darjeeling and Sikkim Himalayas .

Material and Methods	110-114
Results and Discussion	115-120
Summary	121
Literature cited	175-200

Chapter VI : Growth physiology of different varieties of *Fagopyrum dibotrys*

(D.Don) Hara collected from Darjeeling and Sikkim Himalayas but maintained in the same environmental condition of N.B.U campus .

Introduction	122-123
Material and Methods	123-124
Results and Discussion	125-137

Summary	138
Literature Cited	175-200

Chapter VII : Survey on ethnomedicinal use of *Fagopyrum dibotrys*

(D.Don) Hara with special interest on understanding the development of ethnomedicinal practice in Darjeeling and Sikkim Himalayas.

Introduction	139
Material and Methods	140
Results and Discussion	140-152
Summary	153
Literature cited	175-20

Chapter VIII : Biological activity of leaf extract of *Fagopyrum dibotrys*

(D.Don) Hara

Introduction	154
--------------	-----

Section A : Immunological observation in albino rat subjected to water extract of leaf

of *Fagopyrum dibotrys* (D.Don) Hara

Material and Methods	155-157
Results and Discussion	158-163
Summary	164
Literature cited	175-200
