Abstract	001
Preface	003
Introduction	004

CHAPTER – 1

COMPUTATION OF MATRIX-CHAIN MULTIPLICATION AND DETERMINANT OF MATRICES

Paper – 1.	:	Partition method for matrix-chain multiplication.	031
Paper – 2.	:	Generalization of a new technique for finding the determinant of matrices.	051

CHAPTER – 2

NUMERICAL SOLUTION OF NONLINEAR EQUATIONS

Paper – 3.	:	A new method of proportion for solving nonlinear equations.	063
Paper – 4.	:	A fourth-order method for solving nonlinear equations by weight function method.	079
Paper – 5.	:	A probabilistic interval division method for solving nonlinear equations.	089

CHAPTER – 3

CONSTRUCTION OF MINIMUM SPANNING TREE

	Page
Paper – 6. : A new efficient technique to construct a minimum spanning tree.	103

CHAPTER – 4

COMPUTATION IN ASSIGNMENT PROBLEM

Paper – 7. : A note on Hungarian method for solving assignment problem.	113
Bibliography : --- --- --- ---	124
Index : --- --- --- ---	146
Appendix - 1 : List of publications of Jayanta Dutta	147
