

PLATES

Plate: 01 – Specimens-*Bufo himalayanus*, *Bufo stomaticus*, & *Bufo melanostictus*

Plate: 02 – Simple microscopic photographs of sperms of different *Bufo sp.*

Plate: 03 – Enlarged views of different portions of sperms from different species.

Plate: 04 – Scanning electron micrographs of whole sperm

Plate: 05 – Sperm head variation in three different species under SEM.

Plate: 06 – Mid piece variation in three different species under SEM.

Plate: 07 – Tail end variation in three different species under SEM

Plate: 08 – Inner morphology of *Bufo himalayanus* testis under SEM

Plate: 09 – Inner morphology of *Bufo stomaticus* testis under SEM

Plate: 10 – Inner morphology of *Bufo melanostictus* testis under SEM

Plate: 11 – LS and TS of *Bufo himalayanus* sperm at different levels under TEM

Plate: 12 – Sperm of *Bufo himalayanus* under TEM

Plate: 13 – Sperm of *Bufo himalayanus* under TEM

Plate: 14 – LS and TS of *Bufo stomaticus* sperm at different levels under TEM

Plate: 15 – Sperm of *Bufo stomaticus* under TEM

Plate: 16 – Sperm of *Bufo stomaticus* under TEM

Plate: 17 – LS and TS of *Bufo melanostictus* sperm at different levels under TEM

Plate: 18 – Sperm of *Bufo melanostictus* under TEM

Plate: 19 – Sperm of *Bufo melanostictus* under TEM

Plate: 20 – Sperm of *Rana cyanophlyctis* under light microscope

Plate: 21 – Sperm of *Rana cyanophlyctis* SEM and TEM

Plate: 22 – Sperm polymorphism in *Bufo stomaticus*

Plate: 23 – Genomic and restriction cut DNA

Plate: 24 – FACS results
