

ACKNOWLEDGEMENT

I wish to express my heartfelt and sincere gratitude to Prof. Ranjit Paul, Department of Physics, University of North Bengal, not only for introducing me to the fascinating field of liquid crystals, but also for his active supervision, constant help and patience throughout the course of my research work. My revered acknowledgement also extends to Dr. S. Paul, Reader, Department of Physics, North Bengal University, without whose invaluable suggestions and constant inspiration this dissertation would have been incomplete.

I would like to thank Hoffmann-La-Roche Co., Basel, Switzerland and E. Merck (formerly BDH), U.K. for kindly donating the liquid crystal samples used in my research work. Sincere thanks are due to Dr. D.A. Dunmur, University of Sheffield, U.K. for donating samples of a liquid crystal mixture.

A special word of thanks must be made to Mr. Sajal Kumar Sarkar, Senior Technical Assistant, Department of Physics, North Bengal University, for cheerfully and skillfully undertaking the numerous repair and designing works of the instruments used by me.

I have benefited greatly by the willing co-operation of Dr. M. Mitra, Dr P. Mandal, Dr. S. Gupta, Mrs. A. Ray and Miss B. Adhikari, to all of whom I am sincerely grateful. Staff members of the University Science and Instrumentation Centre (USIC), North Bengal University, are gratefully acknowledged for extending the various workshop facilities made available to me.

I would like to express my appreciation to all members of the North Bengal University Research Scholars' Association for their continuous assistance and co-operation in enabling me to carry out my work successfully.

I wish to convey my sincere thanks to the University Grants Commission, New Delhi for providing me with a research fellowship.

This research was supported in part by the University Grants Commission, New Delhi and in part by Inter University Consortium for DAE Facilities, to whom due thanks are recorded.

I end by conveying my fondest regards to my parents, brother and sisters, whose encouragement and support helped me to complete this work.
