

Acknowledgement

It is an immense pleasure to express my deep sense of gratitude to my mentors Professor Bishwanath Chakraborty and Dr. Aniruddha Saha, Immuno-Phytopathology Laboratory, Department of Botany, University of North Bengal, for their noble guidance, unfailing help, advice, constant inspiration and extensive co-operation throughout the execution of this work.

I would also like to express my gratefulness to Professor Usha Chakraborty, Immuno-Phytopathology Laboratory, Dept. of Botany, NBU, for her ungrudging help, cooperation and valuable guidance during my research work.

I am also thankful to Dr. Arnab Sen, Head, Dept. of Botany, NBU, and all my respected teachers of the Department for providing all the necessary help whenever needed.

I would like to express my sincere gratitude to Professor Dilip Kr. Arora, Director, 'National Bureau of Agriculturally Important Microorganisms' (NBAIM), Indian Council of Agricultural Research (ICAR), Kusmaur, Mau Nath Bhanjan, Uttar Pradesh for financial assistance to carry out the present line of investigation in an ongoing network project on 'Application of Microorganisms in Agriculture and Allied Sectors' (AMAAS).

I would like to express my humble gratitude for enormous encouragement and inspiration that I was able to imbibe from late Professor Rabindra Prasad Purkayastha, F.N.A, Rashbehari Ghosh Professor in Botany, University of Calcutta.

At this juncture I would also like to thank Professor Luis Mur, IBERS, Aberystwyth Institute of Biological, Environmental and Rural Sciences, U. K. for his valuable suggestions.

I am also indebted to the Director of Bose Institute, Kolkata for permitting me to avail the facility of Scanning Electron Microscopy.

I would like to acknowledge the Indian Society of Mycology and Plant Pathology (ISMPP) for conferring K.S Bilgrami Best Paper Presentation Award based on the findings of the present work.

I would like to thank all my colleagues and fellow research scholars of the Department of Botany, NBU, for their cooperation and help. I also thank the non-teaching staff of the Dept. of Botany for their cooperation. My thanks are also due to late Mr. Sudarshan Tirkey, field man, for his assistance in the field.

Last, but not the least, I am extremely grateful to my parents and family members for their encouragement and inspiration and above all for being there for me at all times, without which the completion of this work would not have been possible.

Date: February 07, 2011
Place: Immuno-Phytopathology Laboratory, NBU
