	CHAPTER-I INTRODUCTION	1 - 32
1.1	Introduction	1
1.2	Statement of the problem	2
1.3	Literature review	3
1.4	Research gaps	13
1.5	Significance of the study	14
1.6	Location of the study area	16
1.7	Objectives of the study	16
1.8	Hypotheses	17
1.9	Data base and Methodology	17
1.9.1	Data base	17
1.9.1.1	Primary Data	17
1.9.1.2	Secondary Data	17
1.9.2	Sampling procedure	17
1.9.2.1	Purposive sampling technique for selection of villages	17
1.9.2.2	Random sampling technique for selection of households	18
1.9.3	Construction of schedule	20
1.9.4	Methodology	20
1.9.4.1	Method of Data Analysis for the Agricultural vulnerability assessment	20

1.9.4.1.1	Calculation of agricultural vulnerability indicators value	20
1.9.4.1.1.1	Correlation and regression	20
1.9.4.1.1.2	Standardized Precipitation Index (SPI)	20
1.9.4.1.1.3	Population Density	20
1.9.4.1.1.4	Crop Intensity	20
1.9.4.1.1.5	Livestock density	20
1.9.4.1.2	Determination of vulnerability coefficient value	21
1.9.4.1.3	Determination of weight value for different indicators	21
1.9.4.1.4	Determination of overall Vulnerability Index	21
1.9.4.2	Method of Data Analysis for the Assessment of Smart Agricultural Practices (SAPs):	21
1.9.4.2.1	Determination of Indicators of Smart Agricultural Practices (SAPs)	22
1.9.4.2.1.1	Binary Logistic Regression Model	22
1.9.4.2.1.2	Independent Variables	22
1.9.4.2.1.3	Dependent Variables	24
1.9.4.2.2	Awareness Index and Adoption Index	26
1.9.4.2.3	Kendall's co-efficient of concordance (Kendall's W):	26
1.10	Limitation of the study	27
1.11	Conclusion	27
1.12	Reference	28
CHATER-II A BRIEF GEOGRAPHICAL ACCOUNT OF KOCH BIHAR		33 - 57
DISTRICT		
2.1	Introduction	33
2.2	Agro-climatic background	33
2.2.1	Rainfall	34
2.2.2	Temperature	35
2.2.3	Relative humidity	36
2.2.4	Wind speed and wind direction	37
2.2.5	Distribution of special weather phenomena	38
2.3	Physical background	38
2.3.1	Relief	38

2.3.2	Geomorphologic unit and Landform	39
2.3.3	Drainage System	40
2.3.4	Natural Vegetation	41
2.3.5	Soil type	42
2.3.6	Soil series	43
2.3.7	Ground water status	44
2.4	Socio-economic background	45
2.4.1	Population distribution	46
2.4.1.1	Gender distribution	46
2.4.1.2	Rural and urban distribution	47
2.4.1.3	Density distribution	48
2.4.2	Caste and Religion composition	48
2.4.3	Literacy	50
2.4.4	Occupational structure	50
2.4.4.1	The Cultivators	51
2.4.4.2	Agricultural labourer	52
2.4.4.3	Households Industrial workers	52
2.4.4.4	Other workers	53
2.4.5	Kishan Credit Card (KCC) status of the Cultivator	53
2.4.6	Land holding of status the Cultivator	53
2.4.7	Transport and Connectivity	55
2.5	Conclusion	56
2.6	Reference	57
CHAPTER-III ASSESSMENT OF AGRICULTURAL VULNERABILITY OF THE STUDY AREA		58 - 101
3.1	Introduction	58
3.2	Indicators of agricultural vulnerability	58
3.2.1	Exposure indicators	59
3.2.1.1	Maximum and minimum temperatures change rate during kharif and rabi seasons	60
3.2.2.2	High and low Rainfall events during kharif and rabi seasons	61

3.2.2	Sensitivity indicators	66
3.2.2.1	Net sown area to geographical area	66
3.2.2.2	Productivity of food grains	67
3.2.2.3	Organic carbon content of soil	68
3.2.2.4	Marginal farmer in the study area	69
3.2.2.5	Small farmer in the study area	69
3.2.2.6	Human population density	70
3.2.3	Adaptive capacity indicators	71
3.2.3.1	Percentage of irrigated area	72
3.2.3.2	Human development index	73
3.2.3.3	Cropping intensity	74
3.2.3.4	Livestock density	75
3.2.3.5	Percentage of electrified villages	76
3.2.3.6	Percentage of villages with paved road	77
3.2.3.7	Female work participation in agricultural sector	78
3.3	Assessment of Agricultural Vulnerability	79
3.3.1	Determination of vulnerability coefficient for the indicators	80
3.3.2	Computation of weights for the vulnerability indicators	83
3.3.2.1	Weight calculation matrix for exposure indicators	85
3.3.2.2	Weight calculation matrix for sensitivity indicators	86
3.3.2.3	Weight calculation matrix for Adaptive capacity indicators	87
3.3.3	Calculation of overall agricultural vulnerability index	88
3.3.3.1	Composite Exposure Index (CEI)	89
3.3.3.2	Composite Sensitivity Index (CSI)	91
3.3.3.3	Composite Adaptive capacity Index (CAcI)	93
3.3.3.4	Overall Agricultural vulnerability	94
3.3.3.5	Normalized vulnerability in different block in Koch Bihar district	96
3.4	Correlation among the components of agricultural vulnerability	97
3.5	Conclusions	98
3.6	References	99

CHAPTER-IV SMART AGRICULTURAL PRACTICES AND ITS**102-178****DETERMINANTS**

4.1	Introduction	102
4.2	Methodology	103
4.3	Block wise Smart Agricultural practices (SAPs) and its determinants in Koch Bihar district	105
4.3.1	Smart Agricultural practices (SAPs) and its determinants in Koch Bihar-I block	109
4.3.1.1	Adoption of Smart Agricultural Practices (SAPs) in Koch Bihar block-I	109
4.3.1.2	Socio-economic profile of the respondent cultivator in Koch Bihar block-I	109
4.3.1.3	Determinants of Smart Agricultural practice (SAPs) in Koch Bihar block-I	110
4.3.2	Smart Agricultural practices (SAPs) and its determinants in Koch Bihar-II block	114
4.3.2.1	Adoption of Smart Agricultural Practices (SAPs) in Koch Bihar block-II	114
4.3.2.2	Socio-economic profile of the respondent cultivator in Koch Bihar block-II	114
4.3.2.3	Determinants of Smart Agricultural practice (SAPs) in Koch Bihar block-II	115
4.3.3	Smart Agricultural practices (SAPs) and its determinants in Dinhata-I block	119
4.3.3.1	Adoption of Smart Agricultural Practices (SAPs) Dinhata block-I	119
4.3.3.2	Socio-economic profile of the respondent cultivator in Dinhata block -I	119
4.3.3.3	Determinants of Smart Agricultural practice (SAPs) in Dinhata block -I	120
4.3.4	Smart Agricultural practices (SAPs) and its determinants in Dinhata-II block	124
4.3.4.1	Adoption of Smart Agricultural Practices (SAPs) Dinhata block-II	124

4.3.4.2	Socio-economic profile of the respondent cultivator in Dinhata block - II	124
4.3.4.3	Determinants of Smart Agricultural practice (SAPs) in Dinhata block- II	125
4.3.5	Smart Agricultural practices (SAPs) and its determinants in Haldibari block	129
4.3.5.1	Adoption of Smart Agricultural Practices (SAPs) in Haldibari block	129
4.3.5.2	Socio-economic profile of the respondent cultivator in Haldibari block	129
4.3.5.3	Determinants of Smart Agricultural practice (SAPs) in Haldibari block	130
4.3.6	Smart Agricultural practices (SAPs) and its determinants in Mathabhanga-I block	134
4.3.6.1	Adoption of Smart Agricultural Practices (SAPs) in Mathabhanga block-I	134
4.3.6.2	Socio-economic profile of the respondent cultivator in Mathabhanga block-I	134
4.3.6.3	Determinants of Smart Agricultural practice (SAPs) in Mathabhanga block-I	135
4.3.7	Smart Agricultural practices (SAPs) and its determinants in Mathabhanga-II block	139
4.3.7.1	Adoption of Smart Agricultural Practices (SAPs) in Mathabhanga block-II	139
4.3.7.2	Socio-economic profile of the respondent cultivator in Mathabhanga block-II	139
4.3.7.3	Determinants of Smart Agricultural practice (SAPs) in Mathabhanga block-II	140
4.3.8	Smart Agricultural practices (SAPs) and its determinants in Mekhliganj block	144
4.3.8.1	Adoption of Smart Agricultural Practices (SAPs) in Mekhliganj block	144
4.3.8.2	Socio-economic profile of the respondent cultivator in Mekhliganj block	144

4.3.8.3	Determinants of Smart Agricultural practice (SAPs) in Mekhliganj block	145
4.3.9	Smart Agricultural practices (SAPs) and its determinants in Sitai block	149
4.3.9.1	Adoption of Smart Agricultural Practices (SAPs) in Sitai block	149
4.3.9.2	Socio-economic profile of the respondent cultivator in Sitai block	149
4.3.9.3	Determinants of Smart Agricultural practice (SAPs) in Sitai block	150
4.3.10	Smart Agricultural practices (SAPs) and its determinants in Sitalkuchi block	154
4.3.10.1	Adoption of Smart Agricultural Practices (SAPs) in Sitalkuchi block	154
4.3.10.2	Socio-economic profile of the respondent cultivator in Sitalkuchi block	154
4.3.10.3	Determinants of Smart Agricultural practice (SAPs) in Sitalkuchi block	155
4.3.11	Smart Agricultural practices (SAPs) and its determinants in Tufanganj-I block	159
4.3.11.1	Adoption of Smart Agricultural Practices (SAPs) in Tufanganj block-I	159
4.3.11.2	Socio-economic profile of the respondent cultivator in Tufanganj block-I	159
4.3.11.3	Determinants of Smart Agricultural practice (SAPs) in Tufanganj block-I	164
4.3.12	Smart Agricultural practices (SAPs) and its determinants in Tufanganj-II block	164
4.3.12.1	Adoption of Smart Agricultural Practices (SAPs) in Tufanganj block-II	164
4.3.12.2	Socio-economic profile of the respondent cultivator in Tufanganj block-II	164
4.3.12.3	Determinants of Smart Agricultural practice (SAPs) in Tufanganj block-II	165
4.4	Smart Agricultural Practices (SAPs) and Determinants in Koch Bihar district at a glance	169
4.4.1	Adoption of Smart Agricultural Practices (SAPs) in Koch Bihar district:	170
4.4.2	Socio-economic profile of the respondent Cultivators in Koch Bihar district	171

4.4.3	Association between Smart Agricultural practices (SAPs) and its determinants in Koch Bihar district	172
4.5	Conclusion	176
4.6	References	176
CHAPTER-V FARMER'S AWARENESS AND ADOPTION LEVEL OF SMART AGRICULTURAL PRACTICES		179-236
5.1	Introduction	179
5.2	Methodology	179
5.2.1	Awareness level	179
5.2.2	Adoption level	180
5.3	Awareness and adoption level of Smart Agricultural Practices (SAPs) in different blocks of Koch Bihar district	180
5.3.1	Awareness and adoption level of various Smart Agricultural Practices (SAPs) in Koch Bihar-I Block:	180
5.3.2	Awareness and adoption level of various Smart Agricultural Practices (SAPs) in Koch Bihar-II Block:	184
5.3.3	Awareness and adoption level of various Smart Agricultural Practices (SAPs) in Dinhata-I Block:	188
5.3.4	Awareness and adoption level of various Smart Agricultural Practices (SAPs) in Dinhata-II Block:	192
5.3.5	Awareness and adoption level of various Smart Agricultural Practices (SAPs) in Haldibari Block:	196
5.3.6	Awareness and adoption level of various Smart Agricultural Practices (SAPs) in Mathabhanga-I Block:	200
5.3.7	Awareness and adoption level of various Smart Agricultural Practices (SAPs) in Mathabhanga-II Block:	204
5.3.8	Awareness and adoption level of various Smart Agricultural Practices (SAPs) in Mekhliganj Block:	208
5.3.9	Awareness and adoption level of various Smart Agricultural Practices (SAPs) in Sitai Block:	212
5.3.10	Awareness and adoption level of various Smart Agricultural Practices	217

	(SAPs) in Sitalkuchi Block:	
5.3.11	Awareness and adoption level of various Smart Agricultural Practices	221
	(SAPs) in Tufanganj-I Block:	
5.3.12	Awareness and adoption level of various Smart Agricultural Practices	225
	(SAPs) in Tufanganj-II Block:	
5.4	Awareness and Adoption Level of Smart Agricultural Practices (SAPs) in Koch Bihar district at a glance	230
5.5	Conclusion	234
5.6	References	234
CHAPTER-VI PROBLEMS AND PROSPECTS OF SMART AGRICULTURAL PRACTICES (SAPS)		237-254
6.1	Introduction	237
6.2	Methodology	237
6.3	Problems of Smart Agricultural Practices (SAPs)	238
6.3.1	Percentage of rankers of the Problems of smart agricultural practices (SAPs) in Koch Bihar district:	238
6.3.2	Ranks of the Problems of smart agricultural practices (SAPs) in Koch Bihar district:	246
6.4	Prospect of Smart Agricultural Practices (SAPs)	249
6.4.1	Percentage of rankers (Farmer) about the Prospect of Smart Agricultural Practices (SAPs)	249
6.4.2	Ranks of the Prospect of smart agricultural practices (SAPs) in Koch Bihar district:	251
6.5	Conclusion	252
6.6	References	252
CHAPTER- VII FINDINGS, SUGGESTIONS AND CONCLUSION		255-263
7.1	Major findings of the study	255
7.1.1	Findings about the agricultural vulnerability	255
7.1.2	Findings about the determinants of smart agricultural practices	256
7.1.3	Findings about problems of smart agricultural practices	256
7.1.4	Findings about prospect of smart agricultural practices	257

7.2	Suggestion	258
7.2.1	Suggestion to reduce the agricultural vulnerability	258
7.2.1.1	Rain water harvesting	258
7.2.1.2	Regular broadcasting of weather information to the farmer:	258
7.2.1.3	Adjustment of the crop calendar and chose alternative crop	258
7.2.2	Suggestion about Smart Agricultural Practices (SAPs)	259
7.3	Conclusion	263
	Bibliography	264-279
	Appendix	280-289
