INTRODUCTION	1
MATERIALS AND METHODS	19
ANIMALS	19
ANAESTHETIZING THE ANIMAL	19
TUMOR INDUCTION	19
a) Induction Of Ascitic Tumors	19
b) Induction Of Solid Tumors	20
CELL SUSPENSION	20
MEDIUM	20
SERUM	20
PREPARATION OF MONOLAYER CELL SUSPENSION FROM SOLID TUMOR	21
ISOLATION OF TUMOR INFILTRATING LYMPHOCYTES	21
a) Isolation Over Discontinuous Percoll Gradient	22
b) Isolation By Velocity Sedimentation at Unit Gravity	22

	Page
DETERMINATION OF PERCENTAGE OF T AND NK CELLS IN TIL POPULATION BY ANTIBODY MEDIATED LYSIS	24
RAISING OF ANTI-FIBROSARCOMA SERUM	24
PREPARATION OF SOLUBLE CELL SURFACE ANTIGEN FROM SPLENOCYTES AND TUMOR CELLS	25
DETECTION OF TUMOR ASSOCIATED ANTIGEN BY OUCHTERLONY METHOD	25
GENERATION OF MEMORY LYMPHOCYTES	26
MEASURE OF BLASTOGENESIS	27
MEASURE OF DNA SYNTHESIS	27
CYTOTOXICITY ASSAY	28
TREATMENT WITH HYDROXYUREA(HU)	29
TREATMENT WITH BROMODEOXYURIDINE (BUdR)	29
DNase I SENSITIVITY OF CHROMATIN FROM VIRGIN AND MEMORY LYMPHOCYTES	30
PREPARATION OF 8% NONDENATURING POLYACRYLAMIDE GEL	31

	Page
DNA SAMPLE PREPARATION AND ELECTROPHORESIS	32
IMMUNOTHERAPY	32
RESULTS	34
ISOLATION OF TUMOR INFILTRATING LYMPHOCYTES (TILs)	34
A) Over Discontinuous Percoll Gradient	34
B) By Velocity Sedimentation at unit gravity	34
CHARACTERIZATION OF TILs ON THE BASIS OF T AND NK CELL MARKERS	35
DEGREE OF BLASTOGENIC RESPONSE OF TILs AFTER STIMULATION WITH Con A <i>in vitro</i>	35
PROLIFERATIVE RESPONSE OF TILs IN TERMS OF ³ H-THYMIDINE INCORPORATION	36
CYTOTOXIC EXPRESSION OF TILs TOWARDS FIBROSARCOMA CELLS BEFORE AND AFTER ACTIVATION WITH Con A	36

	Page
THE IMMUNE STATUS OF TILs : VIRGIN OR SENSITIZED	37
A) Effect Of Hydroxyurea On Con A Driven Generation Of Cytotoxic Function	37
B) Effect of Bromodeoxyuridine on Con A Driven Generation of Cytotoxic Function	38
SENSITIVITY OF CHROMATIN FROM VIRGIN & MEMORY CELLS TO DNase I DIGESTION	38
ELECTROPHORESIS OF DNase-I DIGESTED CHROMATIN FRAGMENTS IN 8% NON DENATURING POLYACRYLAMIDE GELS	40
DNase I SENSITIVITY OF TUMOR INFILTRATING LYMPHOCYTES AND TUMOR CELLS AT 30 MINS	40
ADOPTIVE TRANSFER OF CON A TREATED TIL AT TUMOR SITE AND GROWTH OF TUMOR	41
DISCUSSION	42
SUMMARY	55
