

Preface

Having unflinching faith on to “omnipotent creator” for his never ending blessing, it’s a great pleasure to express my profound gratitude to my respected parents, who digested much hardship inspiring for prosecuting my studies, thereby receiving proper education.

I feel proud to convey my earnest respect, sincere appreciation and enormous indebtedness to my supervisor Professor Arnab Sen, Cytogenetics and Bioinformatics Laboratory, Department of Botany, University of North Bengal, for this continuous direction, constructive criticism and valuable suggestions in carrying out the research work and preparation of this thesis. I express my gratitude and best regards to Professor Bishwanath Chakraborty and Professor Usha Chakraborty of the Department of Botany for their helpful commentary, supportive attitude and unvarying inspiration throughout

research work.

I am highly grateful to the Head of this department for all administrative support during the entire course of my research work and humble acknowledgements to all my honourable teachers of the Department of Botany, University of North Bengal for their valuable teachings, direct and indirect advice and encouragement and co-operation during the whole study period. I also wish to extend my thanks to all the non-teaching staffs of the Department.

I am also indebted to the Honourable Vice Chancellors, both past and present of the University of North Bengal for letting me to carry out my work in this University. My sincere thanks are also due to The Registrar, NBU for his positive response during my registration and submission of Ph.D. Thesis.

Without the financial support from Department of Biotechnology, Govt. of

India, National Bureau of Agriculturally Important Microorganism, ICAR and UGC Special Assistance Program, my work would start and end in nothingness and hence I sincerely thank DBT, NBAIM and UGC-SAP-DRS III for providing me resource to study.

I also owe special thanks to Credora Lifescience, Bengaluru and Jawaharlal Nehru University, New Delhi for fungal identification and GC-MS analysis. I would also like to express my warm personal gratitude to all my friends of the departments especially Indrani Sarkar, Pallab Kar, Arnab Chakraborty, Mousikha Lala, Saroja Chhettri, Rhea Labar, Dr. Somnath Roy, Mr. Shibu Barman and Ms. Jayanwita Sarkar, for all their ideas that we argued about and constant support

and assistance in completion of this thesis.

Also my sincere thanks to my friends Mr. Arijit Ghosh, Ms. Soma Singha Roy, Ms. Shreetama Maulik and Ms. Madhurima Roy for their support and inspiration. I wish to thank Field man Sambhu Banik and Dolly Mahato and Basudev Singha for maintaining plants in good health. I found no words to thank my parents Mr. Prabir Bhattacharjee and Mrs. Anima Bhattacharjee, my sister Mrs. Panchali Bhattacharjee for their unquantifiable love and continuous support, their sacrifice, never ending affection, immense strength and untiring efforts for bringing her dreams to proper shape. They were constant source of inspiration and enthusiasm in the critical moment of her studies.
