

## P R E F A C E

The investigations in connection with this thesis were made in the Biology Department of St. Joseph's College, Darjeeling. I remain much obliged to Rev. Father J. Pappadil, S.J., the Principal and also to Mr. P. A. Paulose, Head of Biology Department, for giving me laboratory facilities.

I am greatly indebted to Dr. N. Pal, Professor of Botany, Darjeeling Government College, under whose guidance this work was carried out. Grateful acknowledgement is made to Dr. A.K.Chatterji, Applied Botany Section, Indian Institute of Technology, Kharagpur and Dr. M.L. Banerjee, Botany Department, Kalyani University, for their generous help with literature; to Professor (Mrs.) Archana Sharma, Ph.D., D.Sc., F.N.A. and also to the Director, Bose Research Institute, for granting permission to use their libraries. I am greatly obliged to Dr. D.N. Guhabakshi, Botanical Survey of India, Indian Botanic Garden, Howrah, for his valuable help in consulting herbarium and library and to Dr. C.R.Das of the same institution for helping me with the translation of a German publication. I remain highly indebted to Dr. S.C.Datta, Professor of Botany, Calcutta University, for his kind help and encouragement. Thanks are also due to Dr. (Mrs.) Sunanda Pal and Mr. A.P.Das, Botany Department, Darjeeling Government College, for their untiring assistance and helpful criticism. I owe a special debt of

gratitude to the Director, Botanical Gardens of Indonesia, Bogor, Indonesia; to Mr. N.C. Shenga, M.A. C. S. F., Gangtok, Sikkim and to Mr. M.L. Sashankhar, Assistant Curator, Lloyed Botanical Garden, Darjeeling, for furnishing me with several Orchids materials. Special appreciation to my brother, Md. Shariff, for helping in preparation of illustrations. Finally, I wish to take this opportunity to express warm thanks to my parents and friends for their interest and enthusiasm.
