

CYTOGENETIC STUDY OF THE ETHNIC POPULATION
OF NORTH BENGAL WITH SPECIAL REFERENCE TO
CONSTITUTIVE HETEROCHROMATIN POLYMORPHISM

Contents

	PAGE

Preface ^o	iv

PART I

Constitutive heterochromatin Polymorphism

<u>Chapter 1</u> : Introduction	1
<u>Chapter 2</u> : Materials and Methods	9
2.1 Materials	9
2.1.1 The racial groups belonging to different ethnic population of North Bengal	9
2.1.2 Basis of classification of different groups	10
2.1.3 Characteristic features of different groups and sub-groups	11

2.1.3.1	Bengalis	11
2.1.3.2	Plain Tribes	13
2.1.3.3	Hegolis	15
2.1.3.4	Hill Tribes	17
2.1.4	A summary of the principal groups and sub-groups	19
2.2	Methods	21
2.2.1	Collection of Samples	21
2.2.2	Preparation of Culture Media	22
2.2.3	Collection of Human AB Serum	25
2.2.4	Culture setting	24
2.2.4.1	Incubation	24
2.2.4.2	Harvesting	25
2.2.5	Preparation of slides	26
2.2.5.1	Staining	26
2.2.5.2	Photomicrography	26
2.2.5.3	Karyotype preparation	27
2.2.6	Chromosome banding	27
2.2.6.1	C-Banding	29
2.2.6.2	C-band location	30
2.2.6.3	C-Band screening	30

3.1	General Observations	32
3.1.1	Frequency of C-band polymorphism in different racial groups	38
3.1.2	Frequency of individuals carrying C-band polymorphism	39
3.1.3	Individual chromosomes exhibiting polymorphism	40
3.1.4	Frequency of different size categories	41
3.1.5	Frequency of inversions	42
3.1.6	C-band polymorphism - frequency of different size categories	43
3.1.7	C-band polymorphism - frequency of pairs of different size categories	45
	3.1.7.1 Bengalis	46
	3.1.7.2 Plain Tribes	47
	3.1.7.3 Nepalis	48
	3.1.7.4 Hill Tribes	49
3.2	A comparative analysis of the frequency of pairs of different size categories	50
3.3	Frequency of C-band heteromorphism	54
3.4	Frequency of C-band homozygous polymorphism	56

3.5	Frequency of C-band variation in the sub-groups	57
3.5.1	Bengalis	58
3.5.2	Plain Tribes	59
3.5.3	Nepalis	60
3.5.4	Hill Tribes	61
3.6	Frequency of long Y chromosome	62
3.7	Chromosomal polymorphism in different anthropological groups	63
3.8	Frequency of increased and decreased heterochromatin material	64
3.8.1	Bengalis	65
3.8.2	Plain Tribes	66
3.8.3	Nepalis	67
3.8.4	Hill Tribes	68
<u>Chapter 4 : Discussion</u>		69

PART II

Congenital Chromosomal Anomalies

<u>Chapter 1</u>	: Introduction	81
<u>Chapter 2</u>	: Case Reports and Methods	85
2.1	Case Reports	85
2.1.1	Case 1	85
2.1.2	Case 2	85
2.1.3	Case 3	86

	PAGE
2.2 Methods	88
2.2.1 Lymphocyte blood culture	88
2.2.2 Staining	88
2.2.3 G-banding	89
2.2.4 E-banding	89
2.2.5 Photomicrography	90
<u>Chapter 3</u> : Observations	91
3.1 Case 1	91
3.2 Case 2	91
3.3 Case 3	91
<u>Chapter 4</u> : Discussion	92

PART III

Glucose-6-Phosphate Dehydrogenase Deficiency

<u>Chapter 1</u> : Introduction	96
<u>Chapter 2</u> : Materials and Methods	99
2.1 Materials	99
2.2 Methods	100
2.2.1 Collection of blood samples	100
2.2.2 Methaemoglobin Reduction test	100
2.2.3 Ascorbate-cyanide screening test	103

Chapter 3 : Observations

105

Chapter 4 : Discussion

109

PART IV
