Abstract	xviii-xx
Contents	
Chapter 1: Introduction	1-20
1.1 Overview of Health	1
1.1.1 Definition of Health	1-2
1.1.2 Significance of Good Health in Economic Development	2-3
1.1.3 Health and Healthcare	3-5
1.1.4 Determinants of Healthcare in Developing Countries	5
1.1.5 Healthcare and Economic Development	6
1.1.6 Theoretical Perspective of Health Economics	7-8
1.1.7 Relevance of Health Economics in developing countries	8-9
1.1.8 Theoretical Models of Healthcare Services	9-10
1.2 Statement of the problem	10-15
1.3 Justification of carrying out the research in this region	15-16
1.4 Objectives of the study	17
1.5 Research Questions	17-18
1.6 Research Hypotheses	18-19
1.7 Chapterisation	19-20
Chapter 2: Review of literature	21-61
2.1 Introduction to Literature Review	21
2.1.1 Theoretical Background of the Study	22-29
2.1.2 Empirical Studies conducted on the issues	29-60
2.2 Research Gap and Relevance of the Study	61

Chapter 3: Research Design and Methodology	62-87
3.1 Introduction to Research Methodology	62
3.2 Design of the study	62
3.2.1 Selection of the study area	63
3.2.2 Selection of ward number	63-65
3.2.3 Determination of sample size	65-66
3.2.4 Selection of households	66-68
3.3 Research methodology	69
3.3.1 Methods of data collection	69-71
3.3.2 Methods of analysing data	71-77
3.4 Conceptual Framework of the model	78-79
3.4.1 Explanation of the model	79-80
3.4.2 Specification of the model	80-81
3.4.3 Modelling the impact of burden of disease on the utilisation of healthcare services	81-85
3.4.4 Modelling the impact of burden of disease on OOPHE by the people of SMCA	85-86
3.4.5 Log-linear regression model (log-log form)	86-87
Chapter 4: Study area and the Population	88-118
4.1 Introduction to the study area	88
4.1.1 Brief description of urban norms and urban healthcare services in India	89-90
4.1.2 Municipal Corporation cities under West Bengal	90-93
4.2 Brief description of the study area, SMCA	94-96
4.2.1 Population size and Growth of Siliguri	96-97
4.2.2 Slums under Siliguri Municipal Corporation Area (SMCA)	97-99
4.2.3 District-wise distribution of Municipal Wards of SMCA	100-101
4.2.4 Borough-wise distribution of Municipal Wards of SMCA	102
4.2.5 Demographic profile of the study area (SMCA)	103
4.2.6 Healthcare Facilities or Institutions available in SMCA	104-106
4.3 Brief Profile of the Sample	107-118

Chapter 5: Epidemiological profile of Siliguri Municipal Corporation Area (SMCA)	119-140
5.1 Introduction to Epidemiological profile of SMCA	119
5.1.1 Disease Prevalence and its Pattern	119-121
5.1.2 Incidence Rate and Prevalence Rate of disease	121-122
5.1.3 Nature of Disability among the People	123-124
5.1.4 Nature of disease and Prevalence of disease	124-125
5.1.5 Severity of disease and Prevalence of disease	126
5.1.6 Severity of disease and Category of disease	127
5.1.7 Duration of Illness Episode by the sick people	127-128
5.2 Description of Morbidity pattern in the light of Demographic and Socio-economic characteristics of the People of SMCA	129
5.2.1 Morbidity Prevalence rates according to Gender, Age and Education	129-131
5.2.2 Morbidity Prevalence rates according to Caste, Religion, Marital status and Occupation	132-135
5.2.3 Morbidity Prevalence rates according to Economic status and Household Size	136-138
5.3 Summary	138-140
Chapter 6: Utilisation of Healthcare services and Out-of-pocket Healthcare Expenditure in Siliguri Municipal Corporation Area (SMCA)	141-187
6.1 Introduction to Utilisation of Healthcare Services	141
6.1.1 Utilisation of Healthcare Services of the sick people of SMCA	142-143
6.1.2 Nature of Utilisation of Healthcare Services of the sick people of SMCA	143-146
6.1.3 Description of number of Visit to the Healthcare Facilities by the sick people of SMCA	146-147
6.1.4 Utilisation of Healthcare Facilities by Demographic and Socio-economic characteristics of the sick people of SMCA	147-156
6.1.5 Utilisation of Healthcare Facilities by Category of disease	157-160
6.1.6 Utilisation of Healthcare Facilities by Nature of disease	160-162
6.1.7 Utilisation of Healthcare Facilities by Severity of disease	162-166
6.2 Introduction to Out-of-Pocket Healthcare Expenditure (OOPHE)	166

6.2.1 Components of Out-of-Pocket Healthcare Expenditure (OOPHE)	166-168
6.2.2 Analysis of OOPHE according to Demographic and Economic characteristics of the people of SMCA	168-175
6.2.3 Analysis of OOPHE according to Burden of Disease of the people of SMCA	175-180
6.2.4 Analysis of OOPHE according to Health seeking Behaviour of the people of SMCA	180-185
6.3 Summary	186-187
Chapter 7: Impact of Burden of Disease on Utilisation of Healthcare Services and on Out-of-pocket Healthcare Expenditure of the People of Siliguri Municipal Corporation Area (SMCA)	188-207
7.1 Introduction to Econometric Analysis	188
7.1.1 Determinants of Utilisation of Healthcare Services	188-198
7.1.2 Econometric Analysis of the Impact of Disease Burden on Out-of-pocket Healthcare Expenditure	198-201
7.1.3 Interpretation of the results of log-linear regression model	202-205
7.2 Summary	206-207
Chapter 8: Summary of Findings, Conclusions and Suggestions	208-230
8.1 Background, the problem, and objectives	208-211
8.2 Present Study	211-214
8.3 Epidemiological Profile	214-215
8.4 Health Seeking Behaviour or Utilisation of Healthcare Services	216-217
8.5 Out-of-pocket Healthcare Expenditure	218-219
8.6 Impact of Disease Burden on Utilisation of Healthcare Facilities	219-221
8.7 Impact of Disease Burden on out-of-pocket healthcare expenditure	222-223
8.7 General Inferences	223-225
8.8 Policy Recommendations	225-228
8.9 Conclusion	228-230
Bibliography	231-249
Appendices	250-278
