

ACKNOWLEDGEMENT

I take this opportunity to express my deep and sincere gratitude to my honourable supervisor Dr. B. Basu, Professor, Department of Chemistry, North Bengal University, Darjeeling, for his constant guidance, encouragement and inspiration throughout my research work. His extensive knowledge and his logical way of thinking have been of great value for me. His truly scientist intuition has made him as a constant oasis of ideas and passions in science, which exceptionally inspire and enrich my growth as a student, a researcher and a scientist that I aspire to be. I am indebted to him more than he knows.

I wish to express my warm and sincere thanks to Dr. A. K. Nanda, Reader and Dr. P. Ghosh, Head, Department of Chemistry, NBU for the valuable advice and cooperation I received from them throughout the period of my research work. I would also like to express my warm thanks to Dr. A. Majumder of this department for helping me in recording the IR spectra.

I warmly thank all the faculties, staff members and all the research scholars of this department from whom I have always received complete cooperation.

I wish to thank my friends Dr. Sajal Das, Mr. Sekhar Kundu, Ms. Susmita Paul, Ms. Sangita Mitra Mustafy, Mr. Sujit Ghosh, Mr. Kinkar Biswas and Ms. Babli Roy for their help in my laboratory works and for always being there to share my happy and sad moments. I would also like to thank Dr. Pralay Das whose help and advice had made my early research days much easier for me.

I cannot end without thanking my family, my father and mother, without whom I would not have been half the person I am today, my in-laws and finally my husband Dr. Kajal Kumar Mondal, without whose constant support I would never have been able to finish my research work.

Finally, I would like to express my thanks to CSIR, New Delhi, for awarding me Junior and Senior Research Fellowships and The University of North Bengal for providing the infrastructural facilities.
