SUMMARY	(i - vi)
 <u>PART I. SECTION-A</u> 	
I.A-1: <u>Introduction</u>	1
I.A-2: Organotin Carboxylates	8
I.A-2.1: Preparative Methods	8
I.A-2.2: Structure and Reactivity	11
I.A-3: Present work: Background, Results and discussion	23
I.A-3.1: Preparation and Characterisation of α, β -Unsaturated Triorganostannyl Carboxylates and their Reactivity towards Hg(II) Salts	30
I.A-3.2: Conclusion	46
I.A-4: Experimental: General Notes and Preparation of some Acids	48
I.A-4.1: Preparation of α, β -Unsaturated Stannyl Carboxylates	57
I.A-4.2: Reaction of α, β -Unsaturated Stannyl Carboxylates with Hg(II) Salts (X=Cl, OAc)... .	71
<u>PART-I.A</u> : References	74
 <u>PART-I SECTION-B</u> 	
I.B-1: <u>Introduction</u>	86
I.B-2: Present work: Objective, Results and discussion	108

	<u>Page</u>
I.B-2.1: Transesterification of Alkyl/ Aryl Carboxylates to Triorganotin Carboxylates and their Hydrolysis	113
I.B-2.2: Conclusion	121
I.B-2.3: Experimental	122
I.B-2.3.1: General Procedure: Transesterifi- cation in Carbon Tetrachloride	122
I.B-2.3.2: Hydrolysis of Triorganotin Carboxy- lates into their corresponding Acids	130
<u>PART-I.B:</u> References	132

PART-I SECTION-C

I.C-1: Studies on Toxicity of a series of Unsaturated Triorganotin Carboxylates against Phytopathogenic Fungi	139
I.C-1.1: <u>Introduction</u>	139
I.C-2: Present work: Results and discussion	143
I.C-2.1: Biocidal Activity	144
I.C-3: Experimental	148
Materials and Methods	148
I.C-3.1: Antifungal Activities of some α, β - Unsaturated Organotin Carboxylates <u>in vitro</u>	149
I.C-3.2: Phytotoxicity on Rice	150
<u>PART-I.C:</u> References	151

Reprints: 1. J. Organomet. Chem., 443,
C 24(1993).

2. Ind. J. Chem., 31B, 131(1992).

PART-II

II-1:	<u>Introduction</u>	154
II-2:	Present work: Objective and Planning	156
II-2.1:	Present work: Preparation of Picolyl- trialkylstannanes - Results and discussion	160
II-2.2:	Conclusion	167
II-3:	Experimental	169
<u>PART-II:</u>	References	174
