February 26, 1997

This is to certify that Mr. Sanjib Kr. Das, M.Sc. worked in my laboratory since June 1992. He qualified NET examination and was awarded scholarship by Council of Scientific and Industrial Research. He worked on the topic "Characterization of Tumor Infiltrating Lymphocytes in Murine Sarcoma and their Role in Curbing Malignancy" for fulfilment of the requirements of the Degree of Doctor of Philosophy (Science) of the University of North Bengal.

He is conversant with the techniques and literature cited in the dissertation and carried out the work thoroughly and meticulously. It seems that the thesis is fit for submission for Ph.D and he is worthy for award of the degree.

Prof. A. K. Chakravarty
