	Page No.
Acknowledgement.....	i-ii
Contents.....	iii-vi
List of Publications.....	vii
Enclosure: Published Papers	
Seminar/Symposium/Convention attended.....	viii
Enclosure: Abstracts	
CHAPTER I	
Necessity of the Research Work.....	1-13
1.1. Object and Application of the Work.....	1-4
1.2. Choice of the Main Solvents used.....	4-5
1.3. Method of Investigations.....	6
1.4. Summary of the Work done.....	7-11
References.....	12-13
CHAPTER II	
General Introduction.....	14-68
2.1. Investigation on Viscous Synergy and Antagonism.....	14-16
2.2. Investigation on Ion-Solvent Interaction.....	16-17
2.3. Density.....	18-23
2.4. Viscosity.....	23-38
2.5. Ultrasonic Speed.....	38-40
2.6. Correlating Equations.....	41
2.7. Conductance.....	41-56
2.8. Some recent Trends in Solvation Models.....	56-57
References.....	58-68
CHAPTER III	
Experimental Section.....	69-80
3.1. Source and Purification of the Chemicals used.....	69-72
3.2. Experimental Method.....	72-75

References.....	76
Figures.....	77-80

CHAPTER IV

Viscous Synergy and Antagonism and Isentropic Compressibility of Ternary Mixtures Containing 1,3-Dioxolane, Water and Monoalkanols at 303.15 K.....	81-107
--	---------------

Published in Fluid Phase Equilibria

4.1. Introduction.....	81-82
4.2. Experimental Section.....	83
4.3. Results and Discussion.....	83-89
List of Symbols.....	90
References.....	91-93
Tables.....	94-102
Figures.....	103-107

CHAPTER V

Solute-Solvent and Solute-Solute Interactions of Resorcinol in Mixed 1,4-Dioxane-Water Systems at Different Temperatures.....	108-132
--	----------------

Published in International Journal of Thermophysics

5.1. Introduction.....	108-109
5.2. Experimental Section.....	109
5.3. Results and Discussion.....	109-114
List of Symbols.....	115
References.....	116-117
Tables.....	118-125
Figures.....	126-132

CHAPTER VI

Investigation on Viscous Antagonism of Binary and Ternary Liquid Mixtures and its Relation to Concentration at (303.15, 313.15 and 323.15) K.....	133-151
--	----------------

Binary part Published in Journal of Teaching and Research in Chemistry AND Ternary part Published in Journal of the Indian Chemical Society

6.1. Introduction.....	133-134
6.2. Experimental Section.....	134
6.3. Results and Discussion.....	134-138

List of Symbols.....	139
References.....	140-141
Tables.....	142-147
Figures.....	148-151

CHAPTER VII**Excess Molar Volumes, Viscosity Deviations and Isentropic****Compressibility of Binary Mixtures Containing 1,3-Dioxolane and****Monoalcohols at 303.15 K..... 152-174*****Published in Journal of Solution Chemistry***

7.1. Introduction.....	152-153
7.2. Experimental Section.....	153-154
7.3. Results and Discussion.....	154-159
List of Symbols.....	160
References.....	161-162
Tables.....	163-170
Figures.....	171-174

CHAPTER VIII**Ion-Solvent and Ion-Ion Interactions of some Tetraalkylammonium,****Alkali Metals and Ammonium Halides in *i*-Amyl Alcohol at 298.15 K****by Conductometric Technique..... 175-188*****Published in Journal of the Indian Chemical Society***

8.1. Introduction.....	175-176
8.2. Experimental Section.....	176-177
8.3. Results and Discussion.....	177-180
List of Symbols.....	181
References.....	182
Tables.....	183-185
Figures.....	186-188

CHAPTER IX**Studies of Viscous Antagonism, Excess Molar Volume and****Isentropic Compressibility in Aqueous Mixed Solvent Systems at****Different Temperatures..... 189-210*****Published in Physics and Chemistry of Liquids***

9.1. Introduction.....	189-190
9.2. Experimental Section.....	190

9.3. Results and Discussion.....	191-195
List of Symbols.....	196
References.....	197-198
Tables.....	199-206
Figures.....	207-210

CHAPTER X

Densities, Viscosities and Sound Speeds of some Acetate Salts in Binary Mixtures of Tetrahydrofuran and Methanol at (303.15, 313.15 and 323.15) K.....	211-253
---	----------------

Published in Journal of Chemical and Engineering Data

10.1. Introduction.....	211-212
10.2. Experimental Section.....	212-213
10.3. Results and Discussion.....	213-220
List of Symbols.....	221-222
References.....	223
Tables.....	224-247
Figures.....	248-253

CHAPTER XI

Concluding Remarks.....	254-256
--------------------------------	----------------
