|   | <i>Page no</i> |
|---|----------------|
| Preface                                     | i-iii          |
| Acknowledgement                             | iv-v           |
| Contents                                    | vi- xi         |
| List of Tables                              | xii-xv         |
| List of Figures                             | xvi-xviii      |
| List of Photographs                         | xix            |
| Glossary                                    | xx             |
| <b>Introduction</b>                         | <b>1-7</b>     |
| Scope and Purpose                           |                |
| Objective                                   |                |
| Methodology                                 |                |
| Constraints of Study                        |                |
| Design of Study                             |                |
| <b>Chapter-1 PHYSICAL BACK GROUND</b>       | <b>8-30</b>    |
| Introduction                                |                |
| 1.1 Physiography                            |                |
| 1.1.1 Relief                                |                |
| 1.1.2 Slope                                 |                |
| 1.1.3 Geology                               |                |
| 1.2 Drainage System                         |                |
| 1.2.1 Drainage Density                      |                |
| 1.2.2 Drainage Frequency                    |                |
| 1.3 Climate                                 |                |
| 1.4 Soil                                    |                |
| 1.5 Vegetation                              |                |
| 1.6 Fauna                                   |                |
| Conclusion                                  |                |
| <b>Chapter-2 POPULATION CHARACTERISTICS</b> | <b>31-75</b>   |
| Introduction                                |                |
| 2.1 Distribution of Population              |                |

## 2.2 Rural-Urban Populations

### 2.2.1 Changes of Rural-Urban population

## 2.3 Composition of Population

## 2.4 Sex Ratio

### 2.4.1 Decadal Changes of Sex Ratio

## 2.5 Sex Ratio (0-6) ages.

### 2.5.1 Decadal Changes of Sex Ratio (0-6) ages

## 2.6 Scheduled Caste Population

### 2.6.1 Decadal Changes of Scheduled caste Population

## 2.7 Scheduled Tribe Population

### 2.7.1 Decadal Changes of Scheduled Tribe Population

## 2.8 Literacy

### 2.8.1 Decadal Changes of Literacy

## 2.9 Density of Population

### 2.9.1 Density of Population (2001)

## 2.10 Growth of Population

### 2.10.1 Decadal changes of Population (1981-1991)

### 2.10.1 Decadal Changes of Population (1991-2001)

### 2.10.1 Changes of Population (1981-91 to 1991-2001)

## Conclusion

## **Chapter- III GENERAL LAND USE**

**76-105**

### Introduction

## 3 General Land Use

### 3.1 Net Sown Area

### 3.2 Cultivated Area

### 3.3 Cultivable Waste Land

### 3.4 Fallow Land

### 3.5 Forest

### 3.6 Pasture Land

### 3.7 Area Not Available for Cultivation

### 3.8 Build Up Area

### 3.9 Irrigated Area

### 3.10 Un-irrigated Area

### 3.11 Changes in Land Use

- 3.11.1 Changes in Cultivated Area
- 3.11.2 Changes in Culturable Waste Land
- 3.11.3 Changes in Build up Area
- 3.12 Trend of Changes in Land Use Pattern.

Conclusion

## **Chapter-IV CHANGING AGRICULTURAL**

### **PATTERN AND ITS IMPACTS ON LAND USE**

**106-157**

Introduction

4.1 Cropped Area

4.2 Changes in Cropped Area

4.3 Maize

4.3.1 Maize Crop Area

4.3.2 Changes in Maize Crop Area

4.4 Rice

4.4.1 Rice Crop Area

4.4.2 Changes in Rice Crop Area

4.5 Wheat

4.5.1 Wheat Crop Area

4.5.2 Changes of Wheat Crop Area

4.6 Pulse

4.6.1 Pulse Crop Area

4.6.2 Changes of Pulse Crop Area

4.7 Oil Seed

4.7.1 Oilseed Crop Area

4.7.2 Changes of Oilseed Crop Area

4.8 Potato

4.8.1 Potato Crop Area

4.8.2 Changes of Potato Crop Area

4.10 Cardamom

4.9.1 Cardamom Crop Area

4.9.2 Changes of Cardamom Crop Area

4.10 Ginger

4.10.1 Ginger Crop Area

4.10.2 Changes of Ginger Crop Area

#### 4.11 Vegetable (Olericulture)

##### 4.11.1 Vegetable Crop Area

##### 4.11.2 Changes of Vegetable Crop Area

#### 4.12 Horticulture

##### 4.12.1 Horticulture Crop Area

##### 4.12.2 Changes of Horticulture Crop Area

#### Conclusion

### **Chapter-V CROP PRODUCTION, CONCENTRATION, COMBINATION AND DIVERSIFICATION**

**158-200**

#### Introduction

#### 5.1 Crop Production

##### 5.1.1 Maize

##### 5.1.2 Rice

##### 5.1.3 Pulse

##### 5.1.4 Wheat

##### 5.1.5 Oilseed

##### 5.1.6 Ginger

##### 5.1.7 Cardamom

##### 5.1.8 Potato

##### 5.1.9 Vegetable

#### 5.2 Crop Concentration

##### 5.2.1 Cereal

##### 5.2.2 Pulse

##### 5.2.3 Cardamom

##### 5.2.4 Potato

##### 5.2.5 Oilseed

##### 5.2.6 Horticulture

#### 5.3 Crop Combination

#### 5.4 Crop Diversification

#### 5.5 Crop Efficiency

#### Conclusion

## Introduction

## 6.1 Educational Facility

## 6.2 Health Care Facility

## 6.2.1 Mother and Child Health Care Facility

## 6.3 Communication System

## 6.3.1 Transport

## 6.3.2 Post, Telegraph and Telecommunication

## 6.4 Market

## 6.5 Rural Developments

## 6.6 Financial Infrastructure

## 6.6.1 Banks

## 6.6.2 Co-operative Societies

## 6.7 Agricultural Inputs

## 6.7.1 HYV Seeds

## 6.7.2 Fertilizer

## 6.7.3 Irrigation

## 6.7.4 Power

## 6.8 Drinking Water

## 6.9 Electricity

## 6.10 Housing

## Conclusion

**Chapter-VII PROBLEMS OF AGRICULTURAL DEVELOPMENT 228-244**

## Introduction

## 7.1 Physical Constraints in Agriculture.

## 7.1.1 Physical

## 7.1.2 Soil Fertility and Erosion

## 7.1.3 Deforestation

## 7.1.4 Uneven Distribution of Rainfall and Sunshine/Climate

## 7.2 Institutional Problems

## 7.2.1 Land Right and Ownership

## 7.2.2 Land Tenure

## 7.2.3 Irrigation

## 7.2.4 Financial Inputs

7.2.5 Labour

7.2.5 Size of Holdings

7.2.6 Mechanization

7.3 Socio-Cultural Problems

Conclusion

**Chapter -VIII POLICIES AND STRATEGIES FOR AGRICULTURAL**

**DEVELOPEMNT**

**245-253**

Introduction

8.1 Earlier Strategies or Pre-reform Period (1975-1993)

8.2 Present Strategies or Post reform Period (1993-2007)

8.3 Future Strategies

Conclusion

**Chapter-IX SUGGESTIONS AND CONCLUSION**

**254-264**

**Bibliography**

**265-271**
