Preface ...		1
Chapter 1	Recent developments in the theories of photon scattering.	
1.1.	Introduction.....	1
1.1.2.	Incoherent (inelastic) scattering....	1
1.1.3.	Atomic Rayleigh Scattering...	11
1.1.4.	Delbrück scattering and nuclear elastic scattering...	16
1.1.5.	Conclusion...	19
Chapter 2	Incoherent and Coherent scattering of photons.	
2.1.	Introduction...	21.
2.2.	Experimental arrangement...	23
2.2.1.	Source collimation...	24
2.2.2.	Detector assembly...	24
2.2.3.	Scatterers...	25
2.3.	Method of measurement...	26
2.3.1.	Experimental details...	32
2.3.2.	Detector Background...	32
2.3.3.	Acquisition of scattered spectrum and analysis...	33
2.3.4.	Procedure for subtraction of coherent(elastic) scattering contribution...	34

		Page No.
2.3.5.	Measurement of coherent (elastic) scattering ...	35
2.3.6.	Errors and corrections...	37
2.4.	Results...	40
2.4.2.	Angular distribution of coherent scattering cross section...	43
2.5.	Discussion ...	53
2.5.1.	Measurements of incoherent scattering...	53
2.5.2.	Measurement of angular distribution of coherent scattering...	54
2.5.3.	Conclusion...	59
Chapter 3	Measurements of total scattering cross section.	
3.1.	Introduction...	60
3.2.	Experimental arrangements...	64
3.2.1.	Collimation of gamma-ray source and the detector...	64
3.2.2.	Precaution against small angle single scattering...	65
3.2.3.	Precaution against Multiple scattering...	66
3.2.4.	Requirements in the detector system...	66
3.2.5.	Gamma-ray sources...	67
3.2.6.	Absorbers...	68
3.3.	Experimental procedure and measurements...	68
3.3.1.	Procedure...	70
3.3.2.	Measurements...	72

		Page No.
3.4.	Evaluation of uncertainties in measurements...	77
3.5.	Evaluation of the cross sections...	81
3.5.1.	Evaluation of total scattering cross sections...	82
3.5.2.	Discussion and Interpretation of the experimental total scattering data...	98
3.5.3.	Conclusion...	103
Appendix...		104
Bibliography...		108
