

Preface	(ii)
CHAPTER - I			
1. Note on the deflection of a clamped rectangular plate under variable load.	1
CHAPTER - II			
1. Note on the large deflection of a thermo-elastic circular plate under lateral load.	8
2. Note on the large deflection of a circular plate of variable thickness subjected to variable normal pressure and heating.	20
3. Large deflection of shallow spherical shells subjected to variable normal load.	36
CHAPTER - III			
1. Buckling of a heated circular plate of variable thickness.	50
CHAPTER - IV			
1. Stresses and displacements of non-circular cylindrical shells.	66
2. Stresses and displacements of non-spherical domes.	102
3. Bending of thin shells of revolution of variable thickness.	129
CHAPTER - V			
1. Time-hardening and time-softening elastic shells.	159
