	Page
1 Introduction	1
1.1 Location	1
1.2 Topography	1
1.3 The environment	3
1.3.1 Climate	3
1.3.2 Temperature	4
1.3.3 Rainfall	5
1.3.4 Relative Humidity	7
1.4 Vegetation	10
1.5 Cultivation	11
1.6 Economy	12
1.7 Administrative Division	12
1.8 Importance of the Work	12
2 Materials and Methods	14
2.1 The Weed Flora	14
2.1.1 Processing of Specimens	15
2.1.2 Identification	16
2.2 Phytosociology	16
2.3 Phenology	17
2.3.1 Seedling Morphology	17
2.4 Reproductive Potential	18
2.5 Intercrop Weed Flora	18
2.6 Weed Calendar	19
2.7 Allelopathy	19
3 The Weed Flora	20
3.1 Key to the Species	20
3.1.1 Pteridophytes	21
3.1.2 Dicotyledons	21
3.1.3 Monocotyledons	26
3.2 The Enumeration of the Weed Flora	30
3.2.1 Pteridophytes	30
3.2.2 Dicotyledons	32
3.2.3 Monocotyledons	94
3.3 Result and Discussion	117
3.3.1 Richness of the Flora	117
3.3.2 Taxonomic Distribution of Weeds	118
3.3.3 Exotic Weeds	120
4 Phytosociology	122
4.1 Result and Discussion	123

4.1.1 Weeds in Aman	123
4.1.2 Weeds in Rabi	134
4.1.3 Weeds in Boro	145
4.1.4 The Annual Picture	145
5 Phenology	168
5.1 Phenophases	168
5.1.1 Germination	169
5.1.2 Vegetative Stage	169
5.1.3 Flowering Period	169
5.1.4 Fruiting Period	169
5.1.5 Seed Dispersal	169
5.2 Result and Discussion	170
5.2.1 Germination	170
5.2.2 Vegetative Growth	170
5.2.3 Flowering	170
5.2.4 Fruiting	171
5.2.5 Death	171
5.2.6 Life form	172
6 Seedling Morphology	178
6.1 Key to the Identification of Seedlings	179
6.2 Enumeration	182
6.3 Result and Discussion	208
7 Reproductive Potential	211
7.1 Result and Discussion	212
7.1.1 Seeds per Fruit	212
7.1.2 Seeds per Plant	213
7.1.3 Seed weight	213
7.1.4 Reproductive Potential of Successful Families	214
7.1.5 Comparison with Other Floras	216
8 Weed Calendar	221
8.1 Result and Discussion	221
8.1.1 Monthwise Picture	222
8.1.2 Overall Picture	224
8.1.3 Throughout Presence	225
8.1.4 Pteridophytes	225
9 Allelopathy	231
9.1 Result and Discussion	232
9.1.1 Toxicity	237
9.1.2 Effect on Germination	237
9.1.3 Effect on Root and Shoot	237
9.1.4 Effect of Extracts	238
10 Uses of Weeds	243
10.1 Weeds Used as Food for Man	244
10.2 Weeds Used as Food for Domestic Animals	244
10.3 Weeds Used as Medicine	244

10.4	Weeds Used as Fuel	245
10.5	Miscellaneous Uses of Weeds	245
11	General Discussion	248
11.1	Crops and Weeds	248
11.2	Nature of Weeds	248
11.3	Pattern of Distribution of Weeds	249
11.4	Life Style of Weeds	252
11.4.1	Germination	252
11.4.2	Vegetative Growth	252
11.4.3	Flowering and Fruiting	253
11.4.4	Life Form	253
11.4.5	Dispersal and the Selection of Weeding Period	253
11.5	Recognition of Seedlings	254
11.6	Reproductive Capacity and Seedling Establishment	254
11.7	Weed Calendar	255
11.8	Need of Allelopathic Survey	256
11.9	Importance of Weeds	256
11.10	Conclusion	257
12	References	258
