ACKNOWLEDGEMENTS ...	
GLOSSORY ...	
GENERAL INTRODUCTION ...	1 - 8
ABSTRACT ...	9 - 22
<u>CHAPTER - I</u> :	
<u>REVIEW OF LITERATURE</u> ...	23 - 67
Importance of solasodine in steroid industry ...	23
Chemical structure of solasodine ...	26
Synthesis of solasodine in the laboratory ...	27
Degradation of solasodine to 16-dehydro-pregnelone acetate and other steroidal drugs ...	27
Commercially important species of <u>Solanum</u> yielding solasodine ...	28
Steroidal constituents in <u>Solanum viarum</u> Dunal with special reference to solasodine glycosides. ...	30
Isolation, purification and characterization of solasodine and other steroidal constituents in <u>Solanum viarum</u> Dunal and related species. ...	34
Quantitative estimation of solasodine in <u>Solanum viarum</u> Dunal and related species. ...	40
Biosynthesis, turnover and transporation of solasodine in <u>Solanum viarum</u> Dunal and related species. ...	43

contd..

	<u>Pages</u>
Seed germination behaviour in different species of <u>Solanum</u> with special reference of <u>Solanum viarum</u> Dunal.	48
Physiological and biochemical changes during ageing of seed.	51
Growth physiology of <u>Solanum viarum</u> Dunal and related species under various treatments and condition.	54
Treatments and conditions affecting solasodine content in <u>Solanum viarum</u> Dunal and related species.	60
LITERATURE CITED	258 - 306
 <u>CHAPTER - II</u>	
CHEMICAL INVESTIGATION ON DIFFERENT PARTS OF FRUIT AND SEED OF <u>S. VIARUM</u> DUNAL.	68
Introduction	68
Materials and Methods	69
Results	81
 <u>Section - A :</u>	
Isolation and characterization of different chemical constituents in viable seed of <u>Solanum viarum</u> Dunal.	81
 <u>Section - B :</u>	
Isolation and characterization of different chemical constituents in pulp of fresh fruits of <u>Solanum viarum</u> Dunal.	104

(iii)

	<u>Pages</u>
<u>Section - C :</u>	
Isolation and characterization of different chemical constituents in mucilage of fresh fruits of <u>Solanum viarum</u> Dunal.	104
<u>Section - D :</u>	
Isolation and characterization of different chemical constituents in seed coat of viable seeds of <u>Solanum viarum</u> Dunal.	107
<u>Section - E :</u>	
Isolation and characterization of different chemical constituents on cotyledons of viable seeds of <u>Solanum viarum</u> Dunal.	110
<u>Section - F :</u>	
Isolation and characterization of different chemical constituents in three years old non-viable seeds of <u>Solanum viarum</u> Dunal.	113
Discussion	126
Summary	133
LITERATURE CITED	258-306
 <u>CHAPTER - III</u>	
EFFECT OF CHEMICALS ON SEED GERMINATION BEHAVIOUR IN <u>SOLANUM VIARUM</u> DUNAL WITH SPECIAL EMPHASIS ON ITS INVIGOURATION.	135-177
Introduction	135
	contd..

	<u>Pages</u>
Materials and Methods	... 136
Results and discussion	... 141
Summary	... 175
LITERATURE CITED	... 258-306

CHAPTER - IV

FRUIT PHYSIOLOGY IN <u>SOLANUM VIARUM</u> DUNAL WITH SPECIAL EMPHASIS ON ANATOMICAL STUDY IN RELATION TO BIOSYNTHETIC SITE OF GLYCOALKALOID.	... 178
Introduction 178
Materials and Methods	... 178
Results and Discussion	... 189
Summary	... 211
LITERATURE CITED	... 258-306

CHAPTER - V

EFFECT OF CHEMICALS ON GROWTH PERFORMANCE OF <u>SOLANUM VIARUM</u> DUNAL WITH SPECIAL EMPHASIS ON ITS GLYCOALKALOID CONTENT	... 213-257
Introduction	... 213
Materials and Methods	... 221
Results and Discussion	... 214

contd..

	<u>Pages</u>
Summary	... 254
LITERATURE CITED	... 258-306
