

LIST OF TABLES

Table-1.1. Area of Brick Kilns in Different Mouzas

Table-1.2. Selection of Sample Unit on the Basis of Size of the Kiln

Table-1.3. Total Workers in the Different Kilns

Table-1.4. Total Workers in the Selected Sample Unit

Table-1.5. Selection of Sample Size of the Different Types Workers

Table-1.6. Sex Wise Different Sample Size of the Workers

Table-1.7. Age and Sex Wise Profile of the Workers

Table-1.8. Sample Location of Depth of Water Table

Table-1.9. Sample of Soil Texture

Table-1.10. Location of Sample Sites for Water Quality Measurement

Table-1.11. Specification of Assam Coal

Table-1.12. Maximum and Minimum Temperature of Koch Bihar district

Table-1.13. Average Maximum Minimum Temperature and Rainfall of Koch Bihar.

Table-1.14. Rainfall of Koch Bihar district

Table-1.15. Soil Texture and Soil pH in the Blocks of Koch Bihar District

Table- 1.16. Soil pH of Different Mouzas in the Study area

Table-1.17. Distribution of Forest in Koch Bihar

Table-1.18. Land Use Pattern of Koch Bihar District

Table-1.19. Block wise Land use pattern of Koch Bihar District

Table-1.20. Land Use Pattern of the Study Area

Table-1.21. Anova: Land Use Pattern among the Blocks of the District and Mouzas of the Study Area

Table-1.22. Koch Bihar District at a Glance

Table-1.23. Population Structure of the Study Area

Table-1.24. Density of Population and Z-Score of the Study Area

Table-1.25. Population Growth and Literacy

Table-1.26. Working Population

Table-1.27. Main Workers

Table-1.28. Dominant and Distinctive Function

Table-1.29. Scale of Distinctiveness

Table-1.30. Selected Characteristics of Factories by industry group in the district for the year 2010-11

Table-2.1. An Estimate Show the Energy Requirements for Evaporation of one Kg of Water

Table-2.2. The Capacity of Firing of Kilns

Table-2.3. Energy Requirements in Different Types of Kilns

Table-2.4. Basic Information for measuring Performance of Brick Kilns

Table-2.5. Fuel Analysis

Table 2.6. Composite Scores of Brick Kiln Performances

Table 3.1. Fuel Requirements for Brick-Making Using Different Kiln Types

Table-3.2. Total Production of Bricks and Consumption of Coal and Fuel Wood

Table-3.3. Road Density (km/km²) and Z- Score of Road Density

Table-3.4. Density Zone of Koch Bihar

Table-3.5. Aggregate Transportation Score (ATS)

Table-3.6. Consumption of Bricks in Different Sectors for the Session 2015-16

Table 4.1. Consumption of Bricks in Different Sectors for the Session 2015-16

Table.4.2. Prime Cost of Brick Making (Raw Material Overhead Cost Wage and Fuel

Table-4.3. ANOVA of Prime Cost

Table-4.4. Transportation Cost of Distribution of Bricks

Table -4.5. Selling and Distribution Cost

Table- 4.6. Marketing Channel

Table-4.7. Total Fixed Cost and Total Variable Cost

Table-4.8. Direct Cost

Table -4.9. Indirect Cost

Table- 4.10. Profit and Profitability Analysis

Table- 4.11. Gross and Net Profit

Table- 4.12. Cost and Profit of Per Unit Brick

Table- 4.13. Break up of Salary and Wages of Employees and Labourers wages

Table- 4.14. Net Sale Value

Table-4.15. Profitability Analysis

Table-4.16. ANOVA of Different Profitability Ratio

Table-4.17. Cost and Profit Data of Different Brick Kiln Industries of Tufanganj-I, 2015-16

Table-5.1. Wage Structure

Table-5.2. No of Workers in Different Categories

Table-5.3. Total Wages Received by Different Categories of Workers

Table-5.4. Ownership of the House

Table-5.5. Housing Condition of the Worker

Table-5.6. Materials Used for the Roof

Table-5.7. Materials Used for the Floor

Table-5.8. Materials Used for the Walls

Table-5.9. Living Condition of the Workers

Table-5.10. Main Source of Drinking Water

Table-5.11. Source of Water

Table-5.12. Treatment of Drinking Water

Table-5.13. Toilet Facilities

Table-5.14. Types of Fuel Used for Cooking

Table-5.15. Location of Cooking Food

Table-5.16 to 5.19. Nature of Work

Table-5.20. Demographic Profile of the Workers for Determinations of Health Conditions of the Workers

Table-5.21. Respiratory Problems of the Workers

Table-5.22. Musculoskeletal Disorder in Different Parts of Body

Table-5.23. Digestive and Other Health Hazard

Table-5.24. Participants Characteristics of workers by Sex

Table-5.25. Demographic Profile of the Workers

Table-5.26. Household Units

Table-5.27. Nature of Household

Table-5.28. Ownership of the House

Table-5.29. Availability of Bank Account(Male)

Table-5.30. Availability of Bank Account (Female)

Table-5.31. Household Possessions

Table-5.32. Adequacy of Income

Table-5.33. Debt Condition

Table-5.34. Advance Taken from

Table-5.35. Advance/Peshgi/Dadan

Table-5.36. Repayment of Advance

Table-5.37. Spending Behaviour

Table-5.38. Microfinance Loan

Table-5.39. Saving Behaviour

Table-5.40. Future Saving Possibilities

Table-5.41. Financial Situation

Table-5.42. Age Group of Female Worker

Table-5.43. Caste Composition of Female Worker

Table-5.44. Religion composition of Female Worker

Table-5.45. Literacy of Female Worker

Table-5.46. Age of Marriage of Female Worker

Table-5.47. No of Children of Each Female Worker

Table-5.48. Education of the Child of Female Worker

Table-5.49. Land Holding Size of Women Worker

Table-5.50. Types of Work performed by Women

Table-5.51. Income Earned by the Women Workers

Table-5.52. No of Migrant Female Labour

Table-5.53. Push Factors of Migration

Table-5.54 Pull Factors of Migration

Table-5.55. Occupation at Native Places During the Lean Season

Table-5.56. Sexual Harassment

Table-5.57. Household Work and Leisure

Table-5.58. Economic Freedom and Decision Making

Table-6.1. Details of Land and Land Degradation in Different Mouzas

Table-6.2. Annual Loss of Top Soil and Degradation of Land

Table-6.3. Agricultural Land Degradation by Individual Brick Kiln.

Table-6.4. Chemical Properties of Sampled Soils of the Study Area

Table-6.5. Changing Pattern in Chemical Properties of Quarried and Un- quarried land

- Table-6.6. Use of Fertilizer in Kg/Acre
- Table-6.7. Changing Pattern of Use of Fertilizer and Yield Rate
- Table 6.8. Correlation matrix among four water quality parameters
- Table-6.9. Parameters of Water Quality
- Table-6.10. Average water quality
- Table-6.11. Anova: Two-Factor with Replication
- Table-6.12. correlation matrix among different water quality parameters
- Table- 6.13 Student's t-test of water quality parameters
- Table- 6.14. P-value of water parameters
- Table-6.15. Permanent and Temporary Water Logging Area
- Table-6.16. Change of Permanent Water Logging Area
- Table-6.17. Total Solid Wastes of Coal and Wood Burning
- Table-6.18. Solid Waste Generation by Each kiln
- Table-6.19. Solid Waste Generation by Mouza
- Table-6.20. Emissions Generated by Combustion of Coal and Wood

LIST OF FIGURES
