

A C K N O W L E D G E M E N T S

The work presented in the thesis has been carried out under the guidance of Professor H. Chaudhuri, Investigator-in-Charge of the project, financed by the Department of Atomic Energy, Government of India.

The Board of Research in Nuclear Science, Department of Atomic Energy is thanked for their interest in recommending this air shower project to North Bengal University.

I acknowledge the award of a Research Fellowship for a period of five years by the Department of Atomic Energy and also thankfully acknowledge the cooperation of the air shower group of the Tata Institute of Fundamental Research, Bombay.

We are grateful to Professor A.W. Wolfendale, University of Durham, Professor O.C. Allkofer, University of Kiel and Professor G.B. Kristiansen, Institute of Nuclear Physics, Moscow State University for the interest they have shown to the air shower work at North Bengal University.

Professor M. Samorski, University of Kiel and Professor G. Tanahashi, Institute for Cosmic Ray Research, University of Tokyo have helped the project with their suggestions in solving some technical problems. We express our grateful thanks to them.

(II)

I thank Professor J.N.Capdevielle, University of Bordeaux for providing the results of his theoretical work on air showers.

We thank Professor M.S.Sinha for his interest in setting up of the magnetic spectrograph units for the air shower work at North Bengal University.

Dr. G.C.Goswami, Dr. S.K.Sengupta, Biswanath Ghosh, Mihir Ghoshdasgupta and N.Chakravorty who have worked with me in the DAE project are thanked for their help and cooperation.

We are thankful for technical assistance from P.Tasang, K.L.Das, K.Chhetri and A.Chhetri.

Our thanks are due to the Heads of the Department of Physics and teaching staff for their cooperation.
