

ACKNOWLEDGEMENT

The author wishes to acknowledge the encouragement from Bhabha Atomic Research Centre, Trombay (Bombay) Mössbauer spectroscopy group particularly Dr. P.K. Iyengar, Head of Physics Section and Dr. N. S. Sathya Murthy, Head of Solid State Physics Section (B.A.R.C.) for starting this work in the Department of Physics, University of North Bengal. The author is deeply indebted to his supervisor Prof. N. Chaudhuri of the Department of Physics, University of North Bengal for his constant guidance, encouragement and active participation in carrying out this research work. The award of Junior Research Fellowship by U.G.C. through the University of North Bengal is thankfully acknowledged.

The Mössbauer sources have been received from B.A.R.C. Solid State Physics group and isotope group and the author is thankful for the kindness shown by these two departments by supplying the sources at short notice.

The author takes this opportunity of recording his thanks to Prof. R.L. Mössbauer, Professor G.M. Kalvius, Prof. U. Gonser of Germany, Prof. B.A. Goodman of Scotland, Prof. S.P. Puri of India who rendered help by providing valuable information.

The author offers his thanks to Dr. S.K. Sen Gupta of U.S.I.C. (N.B.U.) for his participation in setting up of the Mössbauer system and carrying out the measurements done so far.

The author is grateful to Mr. N.C. Paul of A.C.College, Jalpaiguri for his participation in computer programming. The technical staff of the department of Nuclear Physics(NBU) particularly Mr. P. Tamang and Mr. K.K. Chettri provided willing assistance and the author is grateful to them.

The author would like to acknowledge the kind co-operation from the authority of Sikkim, Government College, Gangtok for granting him leave for doing research work at the University of North Bengal. He also thanks the teaching staff of the department of Physics (NBU) particularly the Heads of the Department during the period of 1978 to 1983 for their kind co-operation and interest in this work.

The author wishes to thank Dr. N. K. Jaggi of B.A.R.C. and Prof. M.S. Sinha, Visiting Professor of Physics (NBU) for their encouragement and interest in this work. He also wishes to express his deep feelings to his elder brothers and to his teacher Sri P.C. Pandit, Head Master of Rajarhat High School (Cooch Behar) for the constant encouragement. The author offer his thanks to Mr. S. Choudhury for typing the thesis.

Lastly, the author cannot refrain from expressing his gratitude to his friends Mr. A. Mukherjee, Mr. T.K.Chaudhuri, Mr. B. Ghosh, and Dr. A.R.Ghosh and Dr. M. Pramanik for their suggestions and encouragement.

Dated 26th Aug. 1983.
Dept. of Physics, N.B.U.

Satyendra Chandra Das.
