

## CONTENT

	Page No.
1. Introduction	1-6
2. Literature Review	7-67
3. Materials and Methods	68-87
3.1. Plant Material	68
3.1.1. Collection	68
3.1.2. Propagation	68
3.1.3. Plantation	68
3.1.4. Maintenance	70
3.2. Application of chemicals	73
3.2.1. Heavy metals	73
3.2.1.1. <i>In vitro</i>	73
3.2.1.2. <i>In vivo</i>	73
3.2.2. Fungicide/ Insecticide	74
3.3. Extraction and quantification of phenol	74
3.3.1. Extraction	74
3.3.2. Estimation	75
3.3.2.1. Total phenol	75
3.3.2.2. Orthodihydroxyphenol	75
3.4. Extraction and estimation of free proline	75
3.4.1. Extraction	75
3.4.2. Estimation	76
3.5. Protein analysis	76
3.5.1. Quantification of protein	76
3.5.2. SDS-PAGE analysis	77
3.5.2.1. Preparation of stock solution	77
3.5.2.2. Preparation of gel	78
3.5.2.3. Sample preparation	79
3.5.2.4. Electrophoresis	79
3.5.2.5. Fixing and Staining	79
3.6. Extraction and quantification of pigments	80
3.6.1. Chlorophyll	80
3.6.2. Carotenoids	80
3.7. Extraction and quantification of carbohydrates	80
3.7.1. Extraction of total sugar	80

3.7.2. Estimation of total sugar	81
3.7.3. Estimation of reducing sugar	81
3.8. Extraction of enzymes	81
3.8.1. Phenylalanine ammonia lyase	81
3.8.2. Peroxidase	82
3.8.3. Polyphenol oxidase	82
3.9. Assay of enzyme activities	82
3.9.1. Phenylalanine ammonia lyase	82
3.9.2. Peroxidase	82
3.9.3. Polyphenol oxidase	83
3.10. Isozyme analysis by Poly Acrylamide Gel Electrophoresis (PAGE)	83
3.10.1 Preparation of stock solution	83
3.10.2. Preparation of gel	84
3.10.3. Sample preparation	85
3.10.4. Electrophoresis	85
3.10.5. Fixing and staining	85
3.10.5.1. Peroxidase	85
3.10.5.2. Polyphenol oxidase	86
3.11. Extraction of catechins from tea leaves	86
3.12. HPLC analysis of catechins	86
3.13. Determination of heavy metal contents in tea leaves	86
3.14. Statistical analysis	87
4. Experimental	88-188
4.1. Effect of different stresses on phenolics in tea leaves	88
4.1.1. Heavy metals	88
4.1.2. Fungicide/insecticide	98
4.2. Effect of heavy metals and chemicals on proline content of tea leaves	104
4.2.1. Heavy metal	104
4.2.2. Fungicide/Insecticide	106
4.3. Effect of different stresses on proteins of tea leaves	106
4.3.1. Protein content	111
4.3.1.1. Heavy metal	111
4.3.1.2. Fungicide/Insecticide	111
4.3.2. Protein pattern	115
4.4. Changes in pigment content of tea leaves following different stresses	115
4.4.1. Chlorophyll	115
4.4.2. Carotenoids	126
4.5. Studies on carbohydrate in tea leaves subjected to anthropogenic stresses	132
4.5.1. Total soluble sugar and reducing sugar	132

4.6. Studies on enzyme activities in tea leaves following stresses	137
4.6.1. Phenylalanine ammonia lyase	137
4.6.2. Peroxidase	145
4.6.3. Polyphenol oxidase	152
4.7. Changes in isozyme profile of peroxidase and polyphenol oxidase following anthropogenic stress	154
4.7.1. Isozyme of peroxidase	154
4.7.1.1. Heavy metal	154
4.7.1.2. Insecticide/Fungicide	157
4.7.2. Isozyme of polyphenol oxidase	162
4.8. HPLC analysis of catechins from tea leaves	166
4.8.1. Heavy metals	166
4.8.2. Fungicide/ Insecticide	166
4.9. Determination of heavy metal content of tea leaves	188
5. Discussion	189-197
6. Summary	198-200
7. References	201-223
8. <i>Cosigendum</i>	224
