

ACKNOWLEDGEMENTS

“The most wonderful mystery of life may well be the means, by which it created so much diversity from so little physical matter” – Wilson.

Ever since my childhood days, I was attached and moved by the use of wild plants by my forefathers that exist nearby my village at Dzongu, North Sikkim. That love gradually increased and developed curiosity for plants in my mind that endowed immensely beautiful nature ultimately inspired me to contribute for the study of floristic compositions of the biggest sanctuary of Sikkim.

I convey my deep gratitude to my Research Supervisor Professor A.P. Das, who stands for plants across the Eastern Himalayan range; the cost of whose valuable guidance and consistent encouragement enabled me in completion of my projected research work and fulfilled the desire that was developing in my mind since my childhood.

I would like to extend my heartiest thank and gratitude to the Head, Department of Botany and all the respected faculty members of this department for their support and kind cooperation during my research work,

I feel privileged to have spent so much of my time in the herbarium cell of the Sikkim Himalayan Circle of the Botanical Survey of India, Gangtok and it is my pleasure to thank Dr. Kanad Das, Scientist In-charge and all other fellow scientists for their constant help and cooperation. I am also grateful to Dr. Khulia, (Scientist) who helped me to identify my fern specimens.

I wish a deep gratitude to my Secretary, Shri M. L. Arawatia, without whose kind support and encouragement this work might have not been completed.

It is my pleasure to acknowledge Secretary cum PCCF, Department of Forest, Govt of Sikkim and all other concerned officials including Shri S.Z. Luckson, (ex Director), Shri Gut Lepcha (Director), Mrs Usha Lachungpa, (Sr. Research Officer) and Shri Karma Legsay (DFO) for permitting me to visit the sanctuary and other necessary supports to complete the survey in the difficult terrains of this Sanctuary.

I would also like to thank Shri Dhiren Shresta (Sr.S.O), Shri Narpati Sharma (Sr.R.A) and Pranoy Bhai (JRF) for providing me all the essential maps and other equipments required for my survey work, I also thanks Shri D.Thinlay Bhutia (Sr.S.O), my colleague Miss Tshering Donka (ASO), Shri Suman Thapa (ASO), for being so supportive during my entire research work. Thanks are also due to all my office staffs for helping me in different ways, without whose help this work would have remain incomplete.

I would also like to thank Shri B.C. Bashista for the support and his heartiest pleasure to share his hostel room during my stay at the university.

During my research work, I have come across and acquainted with numerous obliging and nature effecting personalities like Dr. A.S. Chauhan, Retired Scientist, BSI, Dr. Tika Prasad Sharma, Shri Shiva Kumar Sharma, Shri Giden Lepcha, Shri Zigdel Shengapa, and Shri Navin Chhetri, Block Officer, Pangolakha range. All of them deserve my sincere gratitude for their cordial support.

I also thank to Shri Subhas Pradhan, Shri S.K. Rai, Shri Ratan Giri, Shri Raj Kumar for providing me for their necessary help while processing my delicate alpine specimens. And I am also thankful to Miss Geeta Chhetri for helping me in identification works.

I owe deep gratitude and heartiest thanks to Mrs Ruby Das for her continuous encouragement which enable me to overcome all unanticipated problems during my Research work,

I wish to thank Dr. Pushpa Tamang, Dr. T.M. Henniewta, Dr. J.P. Tamang, Dr. D. Lama, Shri D.P. Neopany (JD), Shri L.K. Rai and Dr. P.C. Rai for being my well wisher and inspiration throughout my research study.

It is always fortunate for being a part of the Taxonomy & Environmental Biology laboratory of the NBU. During which I met several compassionate and enthusiastic personalities including Dr. Chandra Ghosh, Shri Animesh Sakar, Shri Suman Niraoia, Miss Ajita Sarkar, Shri Kishore Biswas, Shri Anand Lama Shri Dibakar Choudhury, Shri Saurav Muktan, Shri Anurag Chowdhury, Shri Goutam Saha, Shri Binod Singha, who always offered me warm and pleasing milieu to work for. I owed deep gratitude to all of them for their magnanimous support till the completion of this work, I remain grateful to Shri Rajiv Biswas and Binoy Patel, who helped me a lot during final stage of my work,

It is apparent that, managing both the home and patients out there in hospital must have been extremely difficult for a lady. I have no words to express gratitude to my beloved wife "Somthi" for understanding, extreme sacrifice, rendering waves of encouragement that make possible for this long awaited work,

I remain grateful to all my family members for their encouragement and support especially to my sister Miss Chumkhee Lepcha, who always wish to see me success in my every endeavors. I am also grateful to Mrs. Sangay Lhamu, Jorden, Chewang Dadul, Tarchen, Songmit and Yangchen for helping me in so many ways while carrying out my research work,

I am in debt with all the inhabitants residing in difficult parts of Kupup, Nathang, Padamchen, Premlakha, Mukkharka, and Kyongnosla for their warm hospitality and also for their whole hearted support during the survey work,

Although numerous more to mention by name, I certainly owe dept to the all individuals whose names might not have been included in this lists, who had taught me so much as they caught on how wonders and valuable is our plants for our future. I will always keep those memorable moments of my life in the deepest corners of my thoughts and mind.
