

ACKNOWLEDGEMENTS

This thesis owes its successful existence to the help, support and inspiration of several people. Although I realize that a mere expression of gratitude is not enough to acknowledge their actual contribution, however, I take this opportunity to appreciate and thank each one of these wonderful people for their kind help and support.

First of all, I would like to express my deepest gratitude to my respected guide, Prof. Tapas Kumar Chaudhuri, Cellular Immunology Laboratory, Department of Zoology, University of North Bengal for giving me the opportunity to work under his supervision. I am grateful to him for his excellent guidance and scientific advices during the course of the study. It was a great privilege and honor to work and study under his guidance. His experienced suggestions made my work, a lot easier. Thank you Sir! For all your kind help.

I am very much thankful to my respected Co-Supervisor Dr. Soumen Bhattacharjee, Department of Zoology, University of North Bengal, for his immense support in framing the work of the thesis. His valuable suggestion and inputs really helped a lot in giving a complete shape to my work . His dynamism, vision, sincerity and motivation have deeply inspired me. He has taught me the methodology to carry out the research and to present the research works as clearly as possible. I am indebted to him for his kind help, support and encouragement.

I am also thankful to my respected Co-supervisor Dr. Biswajit Haldar, Department of Pathology, North Bengal Medical College and Hospital, for his help and support, particularly in providing adequate number of Rheumatoid Arthritic and control subjects for the study. I am grateful to him for providing me access to the instrumentation facilities of his laboratory, 3gen Diagnostics Pvt. Ltd., for performing experiments during the course of my study. I also take this opportunity to thank all the staff of the above mentioned diagnostic laboratory for extending their help and support during my experiments, especially Mr. Bimol Baidya and Mr. Mithun Chakraborty.

I express my sincere gratitude to the Head, Department of Zoology, University of North Bengal for allowing me to use the central instrumentation facility as and when needed during the course of my study. I also express my deep sense of gratitude to all my teachers of the Department, Prof. Ananda Mukhopadhyay, Prof. Sudip Barat, Dr. Min Bahadur, Dr. Dhiraj Saha and Mr. Tilak Saha for their valuable suggestion and kind help.

I appreciate the company of my fellow scholars with whom I worked in the Laboratory. My special thanks to Mr. Avishek Das, who stood beside me like a younger brother as and when required during the course of my work. I acknowledge the help and support of Dr. Priyankar Dey and Mr. Somit Dutta. I also appreciate the inspirations of Dr. Manoj Lama and Mr. Subhrajyoti Roy, Asst. Professors, Department of Zoology, University of Gour Banga.

I would also like to thank Dr. Partha Pratim Paan, for his skilled and experienced suggestions. I also thank him for providing me patients and control subjects during the course of my study.

I would also like to thank Dr. Chittaranjan Nayak, Former HOD, Computer Centre, University of North Bengal, for helping me with the statistical analyses during the initial days of my work.

Thanks are also extended to all the participants for their patience and cooperation. Without them, the work would have been impossible.

I express my sincere gratitude to the staffs of the Central Library, University of North Bengal for their services and kind help.

I like to sincerely acknowledge the University Grants Commission (UGC) and Department of Biotechnology (DBT), New Delhi, for providing the financial assistance to carry out my research work.

It is a good opportunity to express my gratefulness to my parents who are my constant source of encouragement and inspirations. Today, I stand here because of their never ending support and encouragement. I remain ever grateful to them. Last, but certainly not the least, my dear wife, Saswati Dey Guha, deserves a special word of appreciation for her moral support, patience and love. She supported me in every possible way to see the completion of this work.
