

## ACKNOWLEDGMENTS

With great pleasure, I take this opportunity to express my deep sense of gratitude to my supervisor, Prof. Ashim Kumar Chakravarty. His vast knowledge and novel guidance has immensely helped me to pursue with the work meticulously. It is from him that I learned the art of writing. The useful suggestions made while writing the discussion are sincerely acknowledged. I shall remain forever grateful for the extensive valuable time he has spent in discussing matters relating to this thesis and his endurance in bearing with me through out the work.

I am grateful to Prof. P.K Basu, ex-Director, Centre for Life Sciences, and Prof. B.C. Pal, Director, Centre for Life Sciences, North Bengal University for giving me the permission to avail the facilities to carry out the work. I would also like to thank all the Staff members of Centre for Life Sciences for their co-operation in all respect.

I like to thank all the faculty members of Dept. of Zoology, North Bengal University, especially Dr. D.C. Deb, Dr. C.S. Chakraborty, Dr. A. Mukherjee, Dr. J. Pal, Dr. T.K. Chaudhuri and Dr. S. Barat for their encouragement and help during the course of this study. Special thanks are due to Mr. B. Thapa and Mr. R. Adhikari for assisting me in the laboratory and maintaining the animals.

I am indebted to Dr. S. Bondopadhyay, Indian Institute of Chemical biology for providing us with monoclonal antibodies used in the present study. I also like to thank Prof. G.C. Mazumdar, Deputy Director, for providing the facility of liquid scintillation counter during crucial period of my research work.

I also like to thank all my colleagues in the Centre for Life Sciences, especially my labmates, Mrs. Anuradha Rai and Dr.(Mrs.) Moitrayee Chakraborty of extending help throughout the research work.

This acknowledgment will not be complete without mentioning the constant support and affection I received from my father Mr. Surendra Nath Das, my uncle, Mr. Sachindra Nath Das, my mother Mrs. Aleya Das and my aunt Mrs. Deepti Das. This thesis also owes much to the love and encouragement I received from my other family members. I express my sincere gratitude to all of them for their support and wishful blessing all through. I would also like to thank my father in-law Dr. D.N. Roy and mother in-law Mrs. Gaytri Roy for their inspiration, blessing and goodwishes.

Special thanks are due to my wife, Mrs. Reeta Das for her constant encouragement, co-operation and sacrifice during the course of my work.

Lastly, I thank Council of Scientific and Industrial Research for granting me scholarship after qualifying NET examination and providing financial assistance to complete this work.
