

ACKNOWLEDGEMENT

I take this opportunity to pay my heart felt homage and offer my sincere thanks to Dr. J.L.Das Munungo, Reader in Chemistry, University of North Bengal for his valuable, ceaseless guidance and continued interest during the progress of the work.

I am highly indebted to Dr. S.K.Shakravarti, Professor of Chemistry, University of North Bengal, for his keen interest, valuable suggestions and encouragement.

I acknowledge with grateful thanks to the Alkali and Chemical Corporation of India Ltd., Laporte Industries Ltd, U.S., Monolite, South Carolina, U.S.A. and B.D.H. Chemicals Ltd, England, for kindly providing with samples of Feraquat, Laponite, Versaculite and Molecular Sieve - 13X respectively as gift for the work.

I gratefully acknowledge the co-operation of the Teachers, Teacher Fellows, Research Fellows and non-teaching staff of the Department.

I am very much thankful to Dr. P.Roy, Dr. S.K.Saha, Mr. A. Sen, Mr. A.K.Sanda, Mr. C.B.Sunwar, Mr. D.P.Bhattacharya, Mr. K. Mukherjee, Mr. S.Das, Mr. N.H.Haldar, Mr. R.N.Choudhury and Mr. S.C.Mukherjee for their generous help.

I am grateful to the authorities of Khoribari High School, Khoribari, Darjeeling, for granting me leave for the period of my work.

I express my deep sense of gratitude to the Head of the Department of Chemistry and the authorities of the University of North Bengal for extending laboratory facilities.

I am also indebted to the Council of Scientific and Industrial Research, New Delhi, for awarding fellowship and financial support.

Thanks to Mr. N. Chakraborty for typing the manuscript.

I would like to express my thanks to my brothers and sisters and the other members of my family for their inspiration and encouragement during the progress of the work.

Finally, I express my sincere regards to my mother whose kind blessings ceaselessly showered on me during my work.
