

ACKNOWLEDGEMENTS

I owe a great debt of gratitude to my team of teachers – Prof. Shikha Das, MBBS (Cal), DBMS (Cal), MD Path (Cal) as guide, Prof. Shyamal Kumar Basu, MBBS (Cal), MS, PhD, MNAMS, FIPHA, FAMS and Prof. Debasish Maji, MBBS (Cal), MD (Med.), DM (Endocrinology, PGI, Chandigarh) as co-guides. This work was carried out under their direct guidance and expert supervision. The shape of this work is the result of their untiring help, active interest and healthy criticism. It was an experience, rather a privilege, to have worked with them.

I am grateful to Prof. Dipti Basu, MBBS (Cal), DGO (Cal), MS (Cal), FIPHA, Principal, North Bengal Medical College and Hospital for allowing me to use hospital apparatus and records.

My gratitude also goes to Swami Sarvalokananda, Secretary, Ramakrishna Mission Seva Pratishthan/ Vivekananda Institute of Medical Sciences for providing all facilities during the study and to Prof. Geeta Talukder, Former Dean, Vivekananda Institute of Medical Sciences for her helpful sympathy and expert advice.

Special thanks to the staff members, Pathology Department and Biochemistry Department, North Bengal Medical College and Hospital for their guidance and meticulous criticism during several stages of my work. Prof. J.B. Saha, MD, Head, Department of Community Medicine and Prof. T.N. Ghosh, MD, Head, Department of Medicine, North Bengal Medical College and Hospital deserve special mention for their valuable suggestions.

My thanks to Dr. (Mrs.) Tapati Maji, Vice-President, Calcutta Diabetes and Endocrine Foundation, in view of her active help for accomplishing my task.

My warm thanks to the members of Anthropology and Human Genetics Unit, Indian Statistical Institute for extending active support during this work. Prof. Partha P. Majumder, PhD (Stat) deserves my respectful gratitude for going through the manuscript.

My deep regards to Prof. Nimai Chandra Bandopadhyay, Ph.D (Bio-chem) and (Late) Prof. B.R. Sengupta, MD, FRCP, FICP, FAIID, FIAMS for laying the foundation stone for such extensive medical research, and Srimat Swami Ramananda Maharaj for his blessings and encouragement.

Last but not the least, my sympathy goes to those patients included in this study, without whose active co-operation, I could not have proceeded even an inch. I wish them long life and shall be really happy if my humble endeavour can help them to the slightest extent.

Sutapa Das.
(DR. SUTAPA DAS)

**To my parents,
whose love, support and encouragement
made a seemingly endless task possible.**

Dr. Shikha Das

M.B.B.S. (Cal) D.B.M.S. (Cal) M.D Path (Cal.)

D. O. No. **3319**

Dated, the 21st June.....200¹•

TO WHOM IT MAY CONCERN

This is to certify that Dr. Sutapa Das worked for her PhD thesis under our joint guidance and supervision on "STUDY OF EPIDEMIOLOGY AND SOME CLINICO-GENETICAL ASPECTS OF DIABETES MELLITUS"

Her sincerity and keen interest in the study have impressed everyone. She has fulfilled all the requirements including the presentation of seminar talks, related to the nature and the prescribed period of the investigations. Her thesis incorporates the result of her independent observations and original investigation and is being submitted for the fulfillment of the requirement for the degree of Doctor of Philosophy (PhD) in Medicine(Pathology) of North Bengal University.

ID No.....

Date.....

This is to certify that Ms Sutapa Das was under my guidance and supervision during this work entitled "Study of Epidemiology and some clinico-genetical aspects of Diabetes Mellitus".

She is in personal touch with me for more than 6 years and she has worked under me as a resident house physician in the Dept. of Endocrinology and Metabolism, SSKM Hospital & IPGME & R Calcutta.

Her sincerity and keen interest in the study have impressed me. She has worked diligently for this work and I am satisfied with the accuracy and analysis of this study. It is a new work which bears good potential regarding diabetes research.

Date: 23.5.2001
