Chapters -----	Pages -----
1. Introduction	1
Antiquity and origin of dogs	1
Dogs in Mythology	2
Dogs in Astronomy	4
Early domesticated form	5
Discussion on the terms - feral, stray etc applied to dogs	6
Dogs in space mission	6
Excellence and importance of dogs	7
Utilitarian role of dogs	8
Harmful role of dogs	9
2. Study area	11
I. Location	11
II. Area	11
III. Meteorology	12
3. General methods of observation	13
I. Introduction	13
II. Study site	13
III. Study period	14
IV. Daily observation schedule	14
V. Mode of observation	15
VI. Equipment used	15
VII. Methods in recording behaviour	16
4. Population study	17
I. Introduction	17
II. Study site	17
III. Methods	18
IV. Observation and results	19

a) Reproductive potential and birth season	19
b) Natality	20
c) Mortality	20
d) Population increase	21
e) Population density	21
Tables	23
5. Territory and home range in dogs	25
I. Introduction	25
II. Methods of study	25
III. Climatic features and other characteristics of the rural and urban study sites	26
IV. Result and discussion	27
Tables	30
6. Food and food habit	34
I. Introduction	34
II. Methods	35
III. Food items	35
IV. Food preference	36
V. Total food intake	37
VI. Result and discussion	37
Tables	40
7. Scent marking	42
I. Introduction	42
II. Methods	42
III. Observation and results	44
a) Scent marking posture	45
b) Urine marking and territorial defence	48
c) Scent marking in aggressive encounters during mating and nonmating periods	50

d) Scent marking by males during mating association with estrous bitch	52
---	----

Tables	54
--------	----

8. Aggressive behaviour	62
I. Introduction	62
II. Materials and methods of study	63
III. Result and discussion	65
a) Seasonal influence on aggression	65
b) Ritualization	66
c) Aggression among males	67
d) Aggression among bitches	68
e) Aggressive encounters between males and females	68
f) A descriptive account of different aggressive motor patterns	69
i) Threat	69
ii) Chase	70
iii) Roar	71
iv) Snarl	71
v) Bite	72
vi) Fight	72
g) Submissive posture	73
h) Aggression and raised leg urination	74
i) Aggressive intolerance	74
j) Ontogeny of dominance - subordinate relationship	75
k) Interspecific aggression	76
l) Frequency of aggressive interaction	77
m) Reaction distance in aggressive interaction	77
n) Duration of aggression in male-male, male-female and female-female encounters in the breeding and nonbreeding seasons	79

o) Duration of aggressive acts in the dominant and subordinate dogs involving male-male and female-female agonistic interactions	81
p) Frequency of aggressive acts	82
Tables	88

9. Reproductive behaviour	99
I. Introduction	99
II. Materials and methods	100
III. Results and discussion	103
a) Mating season and effect of climatic factors	103
b) Age at sexual maturity	106
c) Estrous, heat and behaviour	106
d) Female choice and male aggressive index	109
e) A typical account of mating behaviour in dogs	111
f) Post-mating behaviour	128
g) Nonmating activities during mating	128
h) Mating between peermates and between mother dogs with their offsprings	130
Tables	133
10. Parental care	140
I. Introduction	140
II. Methods	141
III. Results and discussion	143
a) Gestation period of mother dogs and signs of pregnancy	143
b) Preparturition behaviour	143
c) Nest sites and structure	144
d) Time of parturition	145
e) Parturition behaviour of the mother dogs	145
f) Weight of the puppies after birth	146

g) Post-parturition behaviour of the mother dogs and the puppies	146
h) Reaction of the mother dogs towards the urine of local and stranger adults of both sexes	147
i) Behavioural changes of the puppies and their mothers during neo-natal period	149
j) Behavioural changes of the puppies	152
k) Growth rate in the puppies	155

Tables	159
--------	-----

11. Stray dogs and rabies	173
I. Introduction	173
II. Study site	173
III. Methods of study	173
IV. Results and discussion	174
a) Behavioural symptoms of rabid dogs	175
b) Incidence of biting in different periods of the year and its relation to climatic factors	176
c) Dog bite frequency in peak mating , peak birth and premating seasons	177
d) Frequency of different types of dog bite cases	178
Tables	179

12. Summary	184
-------------	-----

13. References	188
