

## Acknowledgement

I sincerely express my gratitude to my research supervisors Dr. Swapan Kumar Sen Gupta ex-head, University Science Instrumentation Centre, NBU and Dr. Arunava Bhadra, senior research physicist, High Energy & Cosmic Ray Research Centre (HECRRC), NBU for their unabridged support and precious guidance.

I am indebted to Prof. Richard H. Pratt of the University of Pittsburgh for his support and valuable suggestions. I do acknowledge the suggestions from Prof. P.P.Kane of IIT, Bombay which were quite helpful in the analysis of the data. I am thankful to Prof. S.C.Roy of Bose Institute for his helpful gestures.

The major parts of the works presented in this thesis are the outcome of the projects funded by NSF, USA (NSF INT 9631330 and NSF 0201595).

I am thankful to the Faculty members of the department of Physics and HECRRC of North Bengal University for their helpful cooperation.

I am obliged to the University Grants Commission (UGC) for awarding me the Teacher Fellowship under the FDP. I express my sincere thanks to the Principal and the faculty members of the department of Physics of my parent institution, that is, Sikkim Government College, Gangtok for their kind cooperation.

I acknowledge the support received from the different facilities of the North Bengal University, including the Central Library, during my stay in the campus.

It would be unfair if I do not thank my wife Pronita Chettri who, besides her own teaching assignments, is looking after our two small kids all alone in Sikkim.

Finally, I take this opportunity to thank each and everyone, including my family-members and friends, who have been a constant source of inspiration in my research works and my life.
