

ACKNOWLEDGEMENT

It's my pleasure to express my deepest gratitude to my honorable advisor, Dr. B. Basu, Professor of Chemistry, North Bengal University, Darjeeling, for his constant advice, guidance, insight, inspiration and sharing his extensive knowledge throughout the work. I feel lucky being associated with Professor Basu's research group and to begin my research career under his prudent and affable supervision. His enthusiasm and constant encouragement have been of the utmost importance for the progress of this work.

I am grateful to Dr. A. K. Nanda, Reader and Dr. P. Ghosh, Reader, Department of Chemistry for their advice and constant cooperation. I am also thankful to Dr. A. Majumder of this department for helping me in recording the IR spectra.

I take the opportunity to thank all the faculties and staffs of this department from whom, I have always received complete cooperation.

Special thanks to Professor E. Almqvist, Department of Chemistry, Umeå University, Umeå, Sweden, for his interest and valuable suggestions in my work.

I need to thank my dear friends Dr. P. Das, Dr. N. K. Mridha, Ms. Bablee Mandal, Mr. Sekhar Kundu, Ms. Susmita Pal, and Ms. Sangita Mitra Mustafy for their help in laboratory works and sharing happiest and sorrowful moments.

Finally, I would like to thank my parents, brothers and my friend Sonali. Without their constant selflessness, love, and support, I would not be half the person that I am today.

I am thankful to CSIR, New Delhi, for awarding Junior and Senior research Fellowships and to University of North Bengal for providing infrastructural facilities.
