Dedication	ii
Certificate	iii
Plagiarism report	iv
Preface	v-vii
Acknowledgements	viii-ix
Statutory declaration (s)	x
Abstract	xi-xx
List of abbreviation	xxi-xxii
Contents	xxiii-xxviii
List of tables	xxix-xxxii
List of figures	xxxiii-xxxvii
List of photographs	xxxviii-xxxix
<b>Chapter -I: Introduction</b>	<b>1-24</b>
1.1 Prelude	1
1.2 The study area	3
1.3 Problem: Formulation of the thesis	5
1.4 Scope of the study	6
1.5 Objectives	6
1.6 Hypothesis	6
1.7 Research methodology	6
1.8 Sources of data	9
1.9 Review of literature	10
1.10 Conclusion	19
References	20
<b>Chapter-II: Geographical background of the study area</b>	<b>25-39</b>
2.1 Introduction	25
2.2 Topography	27
2.3 Climate	29
2.4 Soil	32
2.5 Drainage and irrigation	33
2.6 Vegetation	36
2.7 Demography	37
2.8 Conclusion	37
References	38
<b>Chapter-III: Causes of Agricultural Transformation</b>	<b>40-75</b>
3.1 Introduction	40

3.2 Database and methodology	41
3.3 Results and discussion	44
3.3.1 Cost- Benefit analysis (CAB) of selected crops of Uttar Dinajpur district	48
3.3.2 Cost-benefit analysis of aman in the study area	52
3.3.3 Cost-benefit analysis of boro in the study area	52
3.3.4 Cost-benefit analysis of wheat in the study area	57
3.3.5 Cost-benefit analysis of maize	57
3.3.6 Cost-benefit analysis of tea	58
3.3.6 Cost-benefit analysis of jute	61
3.3.8 Cost-benefit analysis of potato	61
3.3.9 Cost-benefit analysis of mustard	65
3.3.10 Cost-benefit ratio (B-C ratio)	65
3.3.11 Comparison between total operating cost, total enterprise cost (Cost-D), gross profit, net profit and return to total cost of transforming and native crops	67
3.4 Hypothesis testing	72
3.4.1 Hypothesis –I	72
3.4.2 Hypothesis –II	72
3.4.3 Hypothesis –III	73
3.5 Conclusion	73
References	74
<b>Chapter-IV: Impact of Agricultural Transformation</b>	<b>76-108</b>
4.1 Introduction	76
4.2 Socio-Economic impact of agricultural transformation	77
4.2.1 Marginal farmers	77
4.2.1.2 Economic parameters	80
4.2.1.3 Social parameters	81
4.2.2 Small farmers	82
4.2.2.1 Economic parameters	85
4.2.2.2 Social parameters	86
4.2.3 Medium farmers	88
4.2.3.1 Economic parameters	91
4.2.3.2 Social parameters	93
4.3 Data reliability test	95
4.3.1 Marginal farmers	95
4.3.2 Small farmers	95
4.3.3 Medium farmers	96
4.4 Intra farmer group impact analysis impact: comparative approach	96
4.4.1 Economic parameters	96

4.4.2 Social parameters	99
4.4.3 Marginal farmers	100
4.4.4 Small farmers	101
4.4.5 Medium farmers	101
4.5 Conclusion	107
References	108
<b>Chapter-V: Agricultural Transformation: Perception Study</b>	<b>109-120</b>
5.1 Introduction	109
5.2 Farmers' perception on adaptation rate of agricultural transformation	110
5.3 Perception on temporal inception of agricultural transformation	111
5.4 Perception regarding the benefits of agricultural transformation	112
5.5 Perception on soil fertility in relation to agricultural transformation	114
5.6 Perception on satisfaction level regarding changing cropping pattern	115
5.7 Perception about women-participation	115
5.8 Perception of youths about agricultural transformation	117
5.9 Perception on associated problems of agricultural transformation	117
5.10 Conclusion	119
References	120
<b>Chapter-VI: Trend and Pattern of Agricultural Transformation</b>	<b>121-230</b>
6.1 Introduction	121
6.2 Methods	123
6.3 Crop combination of Uttar Dinajpur	125
6.4 Trend of agricultural transformation	128
6.4.1 Trend of agricultural transformation by regression analysis	128
6.4.1.1 Aus	129
6.4.1.2 Aman	130
6.4.1.3 Boro	130
6.4.1.4 Total Paddy	131
6.4.1.5 Wheat	131
6.4.1.6 Maize	132
6.4.1.7 Pluses	133
6.4.1.8 Mustard	134
6.4.1.9 Jute	135
6.4.1.10 Potato	135
6.4.1.11 Tea	136
6.4.2 Compound annual growth rate of production of major crop	137
6.4.2.1 Aus	140

6.4.2.2 Aman	140
6.4.2.3 Boro	140
6.4.2.4 Total Paddy	140
6.4.2.5 Wheat	141
6.4.2.6 Maize	142
6.4.2.7 Musur	142
6.4.2.8 Maskalai	143
6.4.2.9 Total pulses	143
6.4.2.10 Mustard	145
6.4.2.11 Jute	145
6.4.2.12 Potato	146
6.4.2.13 Til	146
6.4.2.12 Oilseeds	146
6.4.2.13 Tea	147
6.5 Pattern of agricultural transformation	149
6.5.1 Percentage share of each crops to gross cropped area	150
6.5.1.1 Aus	150
6.5.1.2 Aman	150
6.5.1.3 Boro	151
6.5.1.4 Wheat	153
6.5.1.5 Maize	154
6.5.1.6 Pulses	155
6.5.1.7 Mustard	156
6.5.1.8 Jute	157
6.5.1.9 Potato	158
6.5.2 Changes in cropping pattern by the crop group as well as individual crop	163
6.5.3 Compound annual growth rate (CAGR) of cropped area	179
6.5.3.1 Aus	179
6.5.3.2 Aman	179
6.5.3.3 Boro	179
6.5.3.4 Total paddy	182
6.5.3.5 Wheat	182
6.5.3.6 Maize	182
6.5.3.7 Musur (Lentil)	183
6.5.3.8 Maskhalai	183
6.5.3.9 Mustard	184
6.5.3.10 Til	184
6.5.3.11 Jute	185
6.5.3.12 Potato	185

6.5.3.13 Tea	186
6.5.4 Land use and land over (LULC) (1996-2016)	186
6.5.4.1 Methodology for land use and land cover change analysis	187
6.5.5 Land use and land cover (LULC) change	189
6.5.5.1 Land use and land cover (LULC) change	190
6.5.6 Spatio-temporal changes of cropping pattern in Uttar Dinajpur district	191
6.5.7 Contemporary cropping productivity index symbolizing agricultural transformation	192
6.5.7.1 Agricultural productivity region	194
6.6 Structural transformation in agriculture of Uttar Dinajpur district	204
6.6.1 Spatio-temporal variability of land-holding size and agricultural transformation	204
6.6.2 Advancement and transformation in farm mechanization	209
6.6.3 Marketing system as indicator of agricultural transformation	211
6.6.4 Changing pattern of irrigation and pest management	214
6.7 Conclusion	217
References	227
<b>Chapter-VII: Future Trends of Agricultural Transformation</b>	<b>231-256</b>
7.1 Introduction	231
7.2 Database and methodology	231
7.3 Identification of the model	232
7.4 Parameter estimation and selection	242
7.5 Diagnostic checking or modal validation	243
7.6 Forecasting using selected ARIMA model	243
7.7 Conclusion	255
References	256
<b>Chapter-VIII: Problems associated with agricultural transformation</b>	<b>257-265</b>
8.1 Introduction	257
8.2 Lack of irrigation facility	257
8.3 Existence of middleman	260
8.4 Excessive uses of fertilizer	260
8.5 Existence of Insects	261
8.6 Fluctuating rate of transforming crops	261
8.7 Problem regarding NOC and credit card	261
8.8 Price hike of fertilizer and pesticides	262
8.9 Insufficient training and demonstration facility	262
8.10 Poor marketing facilities	262
8.11 Problem regarding agricultural plot elevation	263
8.12 Labour crisis in peak season	263

8.13 Leads to monoculture	263
8.14 Lack of cold storage and food processing unit	264
8.15 Conclusion	264
References	265
<b>Chapter-IX: Strategy for development in agricultural sector in the district</b>	266-274
Conclusion	273
Reference	274
<b>Chapter-X: Summary and conclusion</b>	275-280
<b>References</b>	281-292
<b>Bibliography</b>	293-297
<b>Annexure</b>	298-309
<b>Index</b>	310-312
