Chapter 1:	Introduction 1 - 14
1.1	Concept of the present study:
1.2	Problem of the study:
1.3	Literature Review
1.4	The Study Area:
1.5	Objectives:
1.6	Hypothesis:
1.7	Methodology:
1.8	Significance of the study:
1.9	Organization of work:
	References
Chapter 2:	Geographical set up of the study area 15 - 42
2.1	Introduction
2.2	Physical Setup
2.2.1	Physiography

2.2.2	Geology:
2.2.3	Topography:
2.2.4	Climate:
2.2.5	Drainage
2.2.6	Soil:
2.3	Socio – economic setup:
2.3.1	Demography:
2.3.2	Occupation:
2.4	Conclusion
	References
Chapter 3:	Chronological change of land use in Jalpaiguri district (undivided) 43 - 79
3.1	Introduction
3.2	Characteristics of land use
3.3	Land use pattern of Jalpaiguri district (undivided)
3.3.1	Land use pattern during pre-British period
3.3.2	Land use pattern during 1930s
3.3.3	Present land use pattern
3.4	Nature and extent of land use transformation
3.5	Land use change detection between 1930 to 2014
3.6	Causes of land use change
3.7	Impacts of land use change
3.8	Conclusion
	References
Chapter 4:	Land use change induced degradation 80 - 95
4.1	Introduction
4.2	Nature and Extent of degradation
4.2.1	Land and soil degradation
4.2.2	Landslide and related hazards
4.3	Effects of degradation on fluvial hazards
4.3.1	Bank erosion and Avulsion

4.3.2	Flood hazard	
4.4	Impacts of land use changes on land degradation	
4.5	Impact of land use changes on flood hazard	
4.6	Conclusion	
	References	
Chapter 5:	Process and Impact of flood hazard	96 - 119
5.1	Introduction	
5.2	Causes of flood	
5.2.1	Permanent causes	
5.2.2	Transient causes	
5.3	Early events of flood occurrences	
5.4	River system	
5.5	The 3 years moving average of rainfall pattern in Jalpaiguri district (undivided) from 1989 to 2018	
5.6	Annual high water level variation during peak monsoon season (June, July, August)	
5.7	Relationship between water level and discharge	
5.8	Flood prone zone	
5.9	Impact	
5.9.1	Environmental Impact	
5.9.1.1	Bank failure and avulsion	
5.9.1.2	Rising of river bed	
5.9.1.3	Enlargement of river valley	
5.9.1.4	Loss of biodiversity	
5.9.2	Economic Impact	
5.9.2.1	Loss of forest	
5.9.2.2	Loss of tea garden	
5.9.2.3	Deterioration of surface water quality	
5.9.2.4	Loss of soil quality	
5.9.2.5	Effects on settlements	
5.9.2.6	Effects on farm land	

5.10.3	Human Impact
5.10.3.1	Health hazard
5.11	Conclusion
	References
Chapter 6:	Frequency And Magnitude of Flood hazard vis a vis land degradation 120 - 137
6.1	Introduction
6.2	Time Series Analysis of Annual Rainfall
6.3	Time series analysis of rainfall pattern in monsoon season (June - September)
6.4	Flood frequency analysis
6.5	Best Fit For Frequency Analysis By Chi Square (χ^2) Test
6.6	Coefficient of Determination for different rivers of Jalpaiguri district (undivided)
6.7	High flood incidence induced land degradation
6.8	Conclusion
	Reference
Chapter 7:	Strategies for flood management 138 - 154
7.1	Introduction
7.2	Flood protection
7.3	Preventive measures in the foothill zone
7.4	Strategies for structural measures
7.4.1	Flood management schemes
7.4.2	Embankments
7.4.3	Channelization of flood flow
7.4.4	Channel improvement
7.4.5	Construction of reservoirs/ barrages
7.4.6	Natural waterbodies/ beels
7.4.7	Detention basins
7.4.8	Anti erosion and river training works

7.4.9	Erosion control	
7.4.10	Landslides	
7.5	Strategies for non - structural measures	
7.5.1	Watershed management	
7.5.2	Flood forecasting	
7.5.3	Flood plain zoning	
7.5.4	Development policies in flood plains	
7.5.5	Flood proofing	
7.5.6	Indo - Bhutan Joint River Commission	
7.5.7	Conclusion	
	Reference	
Chapter 8:	Conclusion	155 - 157
