

PART III (Contd.)

Chapter II	Mechanism of Pb (iv) acetate decarboxylation of acids ...	100
Chapter III	Oxidation of acetyl batulanic acid by lead tetraacetate ...	109
Chapter IV	Experimental ...	118
	References ...	133

PART IV

Chapter I	Morphological features of the plant <u>Macaranga denticulata</u> , Muell, Arg. (Euphorbiaceae) ...	136
Chapter II	Short review on Δ^{14} -taraxarene triterpenoids ...	139
Chapter III	Isolation of taraxerone, β -sitosterol and a new triterpene, 3 epi-taraxerol from the stem bark of <u>M. denticulata</u> , Muell, Arg. ...	147
Chapter IV	Experimental ...	154
	References ...	165

PART V

Chapter I	Morphological features of the plant <u>Bischofia javanica</u> , Blume (Euphorbiaceae) ...	167
Chapter II	Isolation of epi-friedelanol acetate, friedelin and β -sitosterol as the neutral constituent and betulinic acid as the acidic constituent from the bark of <u>B. javanica</u>	169
Chapter III	Experimental ...	174
	References ...	182
