

ACKNOWLEDGEMENT

I wish to express my deep sense of gratitude to Dr. (Mrs.) Sukla Paul, Reader, department of Physics, University of North Bengal for her ever available counsel, help and encouragement in guiding my work. I also wish to express my gratefulness to Professor Ranjit Paul, Head of the department of Physics, University of North Bengal for many valuable suggestions and discussions.

I also extend my gratefulness to Prof. Siddhartha Roy, Indian Association for the Cultivation of Science (IACS), Calcutta for his encouraging help and suggestions while using computer program MULFAN to solve the crystal structure of 50CB. I am also much indebted to Prof. H. Shenk, University of Amsterdam for supplying the CAD4 data of CPFB and useful suggestions in solving it's structure.

I wish to convey my sincere thanks to the University Grants Commission, New Delhi for providing me with a research fellowship and the authorities of the University of North Bengal for providing me with laboratory and library facilities.

I am grateful to ^{late} Prof. M. Wada of Tohoku University, Sendai for supplying us the samples BBBA and APAPA. Thanks are also due to Prof. M. Schadt of M/s. Hoffman-La-Roche, Basel, Switzerland for supplying us the samples CPFB and 50CB. I acknowledge M/s. Eastman Kodak & Co., Rochester, U.S.A. for supplying the sample

OOBPD. I also convey my thanks to Dr. Siddhartha Choudhury, Regional Sophisticated Instrumentation Centre, Calcutta for supplying the CAD4 data of 500R.

I wish to express my sincerest thanks to Dr. B.K. Deb, Department of Chemistry, University of North Bengal for his help in purifying the sample OOBPD. Thanks are also due to Prof. N.R. Choudhury, IACS, Calcutta for performing the DTA of OOBPD. I also thank Dr. (Mrs.) M. Mukherjee and Miss. A. Seal of IACS, Calcutta and Mr. C. Nayak, Mr. R. Samanta and Mr. A. Roy of Research Service Centre, NBU for their help during computational work.

I am also grateful to Mr. B. Majumdar, Mrs. K. Bhattacharjee for their help in taking some photographs of APAPA and 500R and to Mr. M. Mitra, Mr. S. Sarkar, Dr. B. Jha, Dr. (Mrs.) B. Bhattacharjee, Mr. M. Gantait of Physics department, N.B.U. and Dr. S. Saha, Dr. A. Majumdar and Mr. A. Hasan of Chemistry Dept., NBU for their help and suggestions.

I also like to thank Mr. S. Sarkar, Sr. Tech. Asst. Dept. of Physics, NBU for his constant help in the maintenance and repairing of the instruments and to Mr. B.K. Nag, G.C. Basak, Mr. K.L. Das, USIC, NBU for fabrication of the hot stage of the polarizing microscope and other equipments.

I also wish to thank Mr. S. Choudhury for typing the thesis in time and Mr. N. Ghosh, Mr. B. Bagchi, Mr. B.P. Bhowmik and Mr. L. Chatterjee for neat drawing of the figures.

I also express my gratefulness to Mr. Ajit Ray, Lecturer, Department of Commerce, M.B.U., Mrs. Saswati Biswas of Centre for Himalayan Studies, NBU and my other friends for the inspirations they rendered throughout the work.

Finally I express my gratefulness to my parents, brothers and sister whose ever-living memory encouraged me to complete this work.

Dated, 30 November, 1985,

UNIVERSITY OF NORTH BENGAL.

Pradip Kumar Mandal.
