

CONTENTS

1. Preface	i
2. Abstract	iv
3. Part A : Semiconductive Investigations	1 - 159
(a) Chapter 1 - General Introduction	1
(b) Chapter 2 - Experimental -- set-up -- Procedure	36
(c) Chapter 3 - Adsorption and Desorption Processes in Some Nitroaromatic Semiconductor - vapour systems: Vapour Pressure Dependence and Kinetic Analysis	40
(d) Chapter 4 - Compensation Effect in Some Nitroaromatic compounds	90
(e) References	145
4. Part B : Spectroscopic Investigations	160 - 255
(a) Chapter 1 - General Introduction	160
(b) Chapter 2 - Electronic Spectra of 9-Nitroanthracene : Solvent Effect on $^1A \rightarrow ^1L_a$ and $^1A \rightarrow ^1L_b$ Transitions	188
(c) Chapter 3 - Electronic Spectra of 2-Nitrofluorene : Solvent Effect on $^1A \rightarrow ^1L_a$ Transition	216

(d) Chapter 4 - Electronic Absorption and Emission Spectra of 1,4-Dinitro- naphthalene	228
(e) References	248
5. Appendix	256
(a) List of publication	
(b) Vita
